

University College Dublin Lyons Research Farm
College of Health and Agricultural Sciences

220 hectare research farm in Lyons Estate, Co. Kildare

The farm operates mixed enterprises, supporting teaching and research in the areas of beef, dairy, equine, sheep, pigs and tillage.

#1

UCD is the first destination of choice for students in Ireland interested in studying Agriculture, Food Science, Human Nutrition and Veterinary Medicine

UCD was recently ranked the # 1 University in the world in agricultural sciences and food science and technology on citations per paper, based on Thomas Reuters InCites™ data among institutions publishing at scale.

UCD School of Veterinary Medicine is one of only six veterinary schools currently accredited by the American Veterinary Medicine Association in Europe.
