**VOLENEER FOR WELLNESS & EXERCISE STUDY**

Are you aged 55-65 years? Do you want to start exercising but don’t know how to begin? Do you know that you should be exercising but don’t feel that you have the time? Do you want to find out more about your current level of fitness? v

Well here is a great opportunity: UCD School of Public Health, Physiotherapy and Population Science is currently recruiting participants for an exercise training study. The exercise is simple to perform, so you don’t need to be sporty or have exercised in the past. It will involve short bursts of high intensity exercise, with minimum impact on your day-to-day routine. Comprehensive health and fitness evaluations will be provided and exercise training will take place either in UCD or in the home.

If you are interested in taking part or would like more information please contact at wellness@ucd.ie or alternatively phone 087-7723678.

Prof. Giuseppe De Vito MD, PhD, FFSEM, School of Public Health, Physiotherapy and Population Sciences.
DO YOU SUFFER FROM LOW BACK PAIN?

Has it been troubling you for longer than 6 months? Are you aged between 20 and 60?

If so you are invited to participate in a clinical research project being conducted by The Stim XDP research team based in the Institute of Sports Science and Health. The team are investigating the use of deep spinal Electrical Muscle Stimulation (EMS) to treat chronic low back pain. The device being trialled has been designed to target specific deep spinal and abdominal muscles which are frequently found to be dysfunctional in the presence of chronic low back pain. If you are interested in participating in this pioneering research, please contact Lorna on 01 716 3241 or email lorna.holcroft@ucdconnect.ie
