

5th International Conference of Fire Effects on Soil Properties

Changes to the Original Program

Tuesday

Cancelled talks

- 12:00 Fire-driven Biomass and Peat Carbon Losses and Post-fire Soil CO₂ Emissions in a West Kalimantan Peatland Forest: Estimation from Field Assessments Astiani, Dwi

Wednesday

Cancelled talks

- 10:00 Fieldwork approach on soil water repellency assessment after wildfires in North-central Portugal, González-Pelayo, Óscar

Moved talks

- 10:00 Peatland ecohydrological resilience examined through thermal signatures, Kettridge, Nicholas (*originally scheduled Wednesday 10:15*)

Friday

- 11:00 Post-fire impacts on losses of soil organic matter and its composition in Mediterranean eucalypt stand, Faria, Silvia Regina (*originally scheduled 11:45*)
- 11:45 Charring temperature drives organic soil transformations during a boreal forest fire, Stefan Doerr (*originally scheduled 11:00*)

Cancelled Posters

- 14A Post-fire scenario in central Portugal through the Landscape Function Analyses methodology (LFA)

Our sponsors: [EPA](#), [Fáilte Ireland](#), [International Association of Wildland Fire](#) and
