

Paediatric Imaging Study Day

Considerations and Concerns

Overview

Saturday 2nd March 2013
09.00-17.00

This study day, hosted by UCD School of Medicine and Medical Science is targeted towards radiographers, radiologists, nurses, students of medicine, diagnostic imaging and nursing and healthcare professionals interested in the area of paediatric imaging.

The programme brings together experts in paediatric radiography and radiology from across Ireland and the UK. The format is designed to update and inform participants with regard to the latest developments and best practice in this evolving area.

Topics include: optimising modalities, paediatric pathologies, the roles of nursing and play therapy, non-accidental injury and issues around consent.
