EMPOWERING EUROPEAN INNOVATORS

The EIC story

"Europe does not yet have a world class scheme to support the very best innovations in the way that the European Research Council is the global reference for supporting excellent science. So I would like us to take stock of the various schemes to support innovation and SMEs under Horizon 2020, to look at best practice internationally, and to design a new European Innovation Council."

Carlos Moedas, European Commissioner for Science & Innovation, June 2015.

Supported by EU leaders

"We will only succeed if we are the ones creating, developing and producing new technologies. That is why we need: a strong EU commitment to disruptive innovation within the framework of the European Innovation Council (EIC). The goal is to support very high risk deep tech projects at the European level"
