ORIENTATION

#helloucd

Background:

Bachelors - Mechanical Engineering

PhD - Orthopaedic Biomechanics

Industry

Medical Devices (Orthopaedic)

R&D – MNC – worldwide portfolio

Academia

UCD (Mechanical Engineering)

Currently:

Dean of Engineering

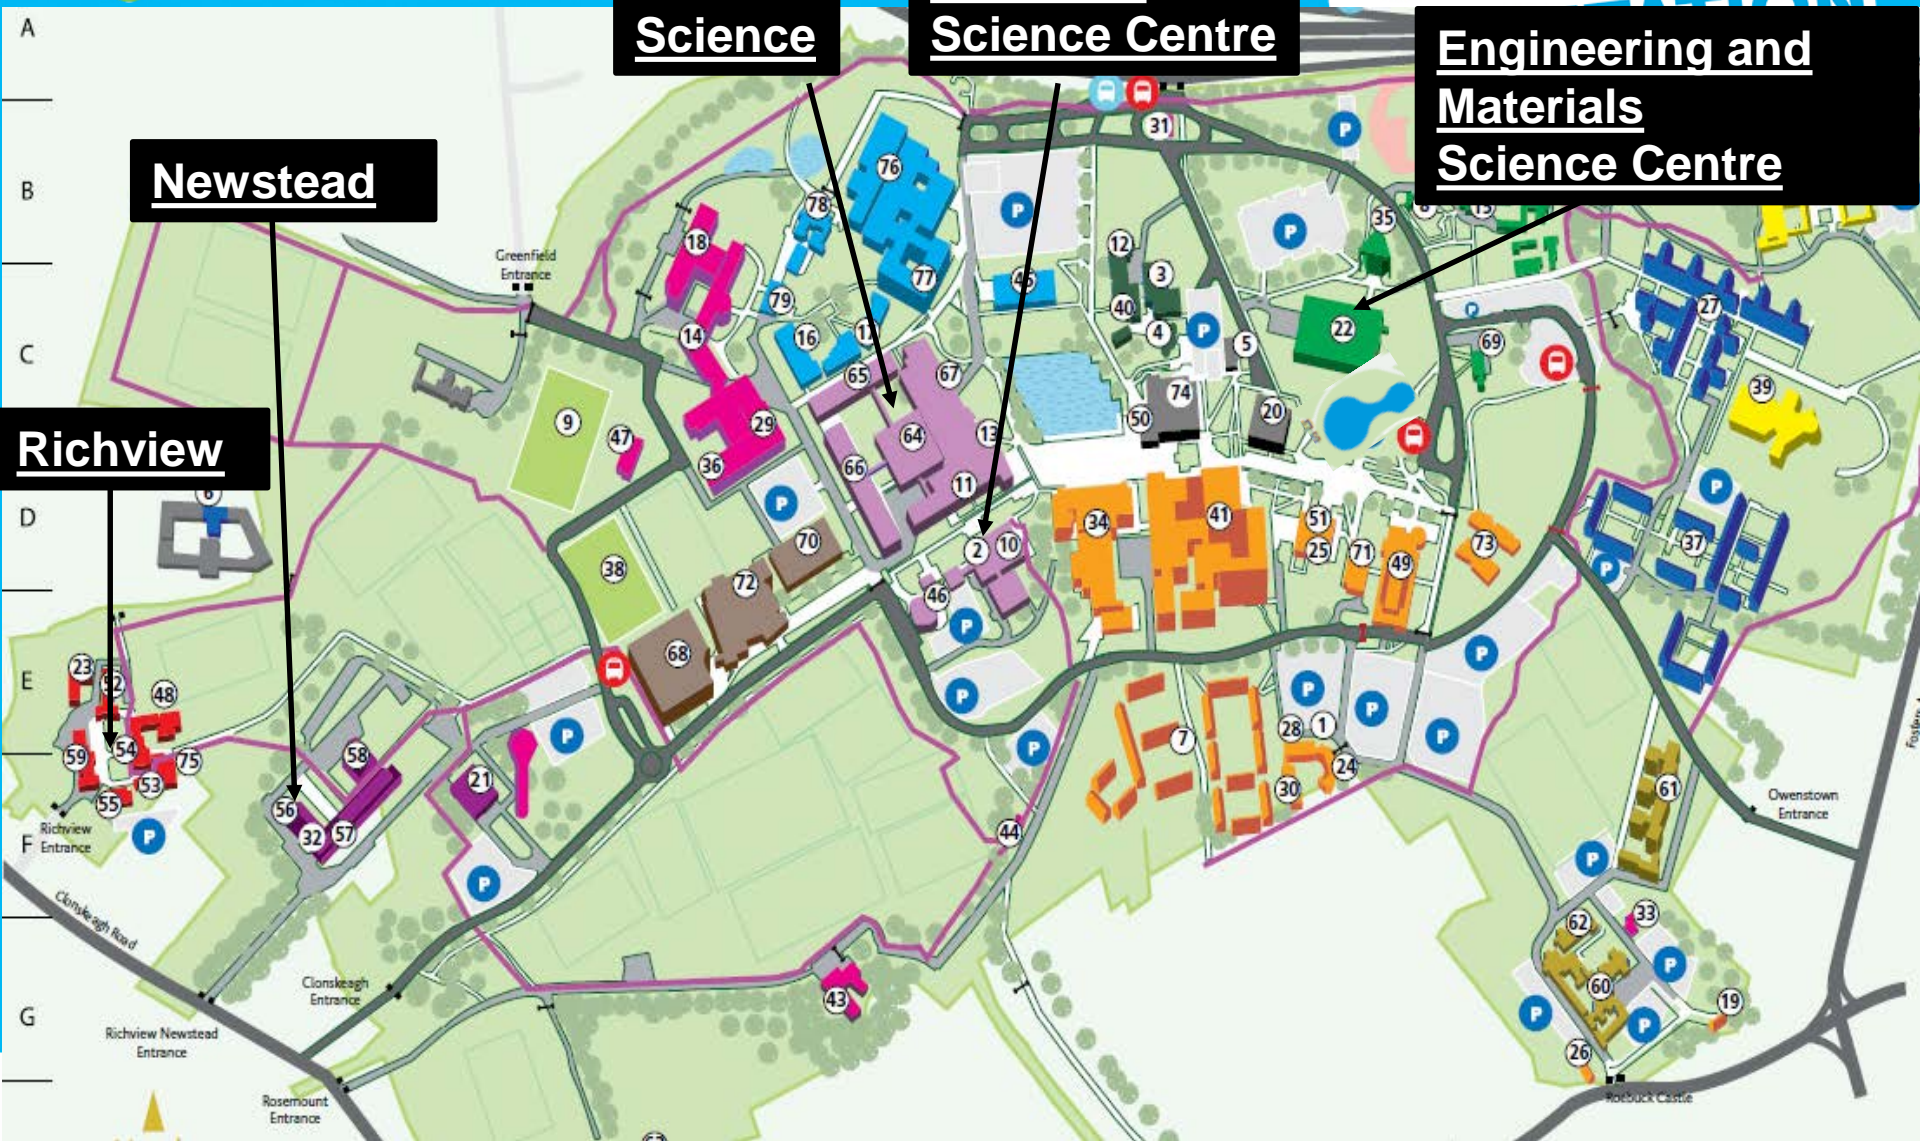

Principal, College of Engineering & Architecture

University College Dublin
An Coláiste Ollscoile, Baile Átha Cliath

UCD 2018

University College Dublin
An Coláiste Ollscoile, Baile Átha Cliath

What is Engineering?

UCD 2018
ORIENTATION

FUN EVENTS

University College Dublin
An Coláiste Ollscoile, Baile Átha Cliath

UCD 2018
ORIENTATION

#helloucd

Technical Understanding

- A sound knowledge of disciplinary fundamentals
- A strong grasp of mathematics
- **The ability to apply theory in practice**
- Ability to be creative and innovative

Enabling Skills

- Work effectively in a business environment
- Communication skills
- Teamworking skills
- Business awareness of the implications of engineering decisions and investments

University College Dublin
An Coláiste Ollscoile, Baile Átha Cliath

Abilities & Attributes of Graduate Engineers

“Engineers must be able to use science and mathematics in their thinking”

“An engineer’s analytical thinking is framed by, and used in, the service of practical ends”

“The engineer needs ‘*creativity*’.. and to exhibit ‘*leadership*’ .

*Educating Engineers: Designing for the Future of the Field, Sheppard et al.

Biomedical Engineering

Biomedical Engineering involves applying traditional engineering methods and techniques to solve problems in biology and medicine, and advance healthcare.

Chemical & Bioprocess Engineering

Chemical & Bioprocess Engineers are fundamentally interested in transformations (e.g. the transformation of crude oil into petrochemicals or the conversion of intermediates (chemicals) to pharmaceuticals) and how such transformations can be realised on a large scale through research, design, construction and operation.

Civil/Structural Engineering

Civil/structural engineers design, build, manage and operate the infrastructure around us in a way that is sustainable and ethical - impacting how and where we live, work, travel & enjoy good health.

Electronic & Computer Engineering

Electronic Engineering is concerned with the design of circuits and systems (both hardware and programming/software) that underpin the on-going revolution in mobile communications, internet and digital media.

Electrical Engineering

Electrical Engineering is concerned with the energy uses of electricity and focuses on the generation, transmission and final use of the electricity that powers our world.

Energy Systems Engineering

Energy Systems Engineers work on finding and implementing solutions to the economic and environmental challenges facing the energy systems of different nations. All energy systems not just renewables.

Mechanical Engineering

Mechanical Engineering is concerned with the design, manufacture, operation and testing of components, devices or systems.

Structural Engineering with Architecture

Structural Engineering with Architecture is designed to give engineers a full understanding and appreciation of the architectural profession, coupled with the solid fundamentals of the engineering degree.

Studying UCD Engineering

University College Dublin
An Coláiste Ollscoile, Baile Átha Cliath

Stage 1

- 'Common' Structure
- Select Discipline Stream (May 2019)

Stages 2 & 3

- Discipline Major Stream
- Decision to Enter ME or BE stream (May 2021)

Stage 4

- BE Route
- Graduate BE (Sept 2022)

Stage 5

- ME Route
- Graduate ME (Sept 2023)

How wide is the range of UCD Engineering Degree options?

Biomedical Engineering

Chemical & Bioprocess Engineering

Civil, Structural & Environmental Eng

Electrical Energy Engineering

Electronic & Computer Engineering

Engineering with Business

Structural Engineering with Architecture

Biosystems & Food Eng

Civil Engineering

Electrical Engineering

Electronic Engineering

Energy Systems Eng

Mechanical Engineering

Materials Science & Eng

Optical Engineering

What will I study in First Year?

2018

ORIENTATION

#helloucd

Core Subjects:

- Science - Physics & Chemistry
- Mathematics
- Energy Engineering
- Mechanics
- Electrical/Electronic Engineering
- Creativity in Design

Engineering 'Option' and 'in-programme' electives allow you to build your knowledge base toward Stage 2 and beyond

University College Dublin
An Coláiste Ollscoile, Baile Átha Cliath

How will I learn?

- **Lectures**

Fundamentals (physics, chemistry, mathematics), application to engineering, national and global context

- **Laboratories, Design Exercises & Project Work**

“hands-on” experience, conducting experiments, making measurements with a range of instrument types, analysis / interpretation of data, presentation/communication of results

- **Tutorials**

University College Dublin
An Coláiste Ollscoile, Baile Á

UCD Engineering Study Abroad

ucd

Exchange Opportunities

Available - Stage 2 and Stage 3

Requirements – Pass all Core modules with
Minimum Grade = C
Minimum Stage GPA = 3.08

Who employs UCD Engineering Graduates?

UCD STUDENT CHARTER

#helloucd

The Student Charter

summarises the
**aspirations and
expectations for all
members of our
University community.**

UCD STUDENT CHARTER

UCD 2018
ORIENTATION

#helloucd

The Charter sets out the
roles and responsibilities of
the various groups within our
University and outlines what
students can expect from
their University and what the
University can expect from
its student members.

Continuation Procedure

Intervention 1

- **Academic Warning**
 - ***Failed to achieve 2/3 of the available semester credits****
 - Student receives written notification of Academic Warning
 - Student required to meet with nominated staff member to devise a plan of action, agreeing specific

Intervention 2

- **Academic Probation**
 - ***Student on Academic Warning fails to meet specified targets within approved timeframe***
 - Student receives written notification of Academic Probation
 - Student required to meet with Dean or Dean's nominee to devise a plan of action, agreeing specific targets for passing modules within an approved timeframe

Intervention 3

- **Continuation Consideration**
 - ***Student on Academic Probation for a period of two consecutive semesters subsequent to the approved timeframe***
 - The governing board may recommend discontinuation to The Standing Committee for Continuation/Re-admission

The Standing
Committee for
Continuation/Re-
admission

- ***Student will be notified in writing of the outcome of the committee's decision***
- Student permitted to continue in programme or
- Student excluded from programme

UCD College of Engineering & Architecture Programme Office Registration Issue Form

Your query is important to us so please bear with us as we are experiencing high volumes of student queries at present.

Please complete this issue form giving us details of your query and we will endeavour to resolve it for you as soon as possible. Please wait for a response and do not send the query to multiple members of staff as this will result in a slower service to you and other students and possible duplication of work.

Thank you!

Registration Made Easy Lab Help is available!

#helloucd

Pop down to the Registration Made Easy Lab,
Mon to Fri. **3rd to 7th September**, from 09:00 to 17:00

Staff will be located in Room **A105** on the first floor of the
Newman Building during Orientation week, and at the
Student Desk after that

Language Electives

At the Applied Language Centre

Arabic

Chinese

English

French

German

Italian

Japanese

Russian

Spanish

Swahili

We also offer Irish Sign Language
Each elective is worth 5 credits

Structured electives are also available in Applied French, German, Japanese and Spanish

Small group teaching (between 14-18 people per class) offers a personal experience

Our teachers are all either native or near-native speakers of their language

Our flexible timetable enables students of all disciplines to find a class that suits their timetable

For more information: see www.ucd.ie/alc or email languages@ucd.ie

REMINDER!!!

UCD 2018
ORIENTATION
#helloucd

**Module registration closes
on Friday, 21st September
2018, 5pm.**

Any Semester One module(s) not dropped by Friday, 21st September 2018 **will be subject to fees and will appear on your academic record.**

University College Dublin
An Coláiste Ollscoile, Baile Átha Cliath

- Allocation of provisional electives takes place on the afternoon of Friday, 7th September and Saturday, 8th September. **Check your UCD Connect email on Saturday, 8th September to see if you were successful in getting a place on your chosen module.**
- In-programme electives are allocated on first-come first-served basis.
- **Monday, 10th September 2018 - Lectures start 9am in A-H 2.18 SCH**
