

Blackboard Mobile Learn

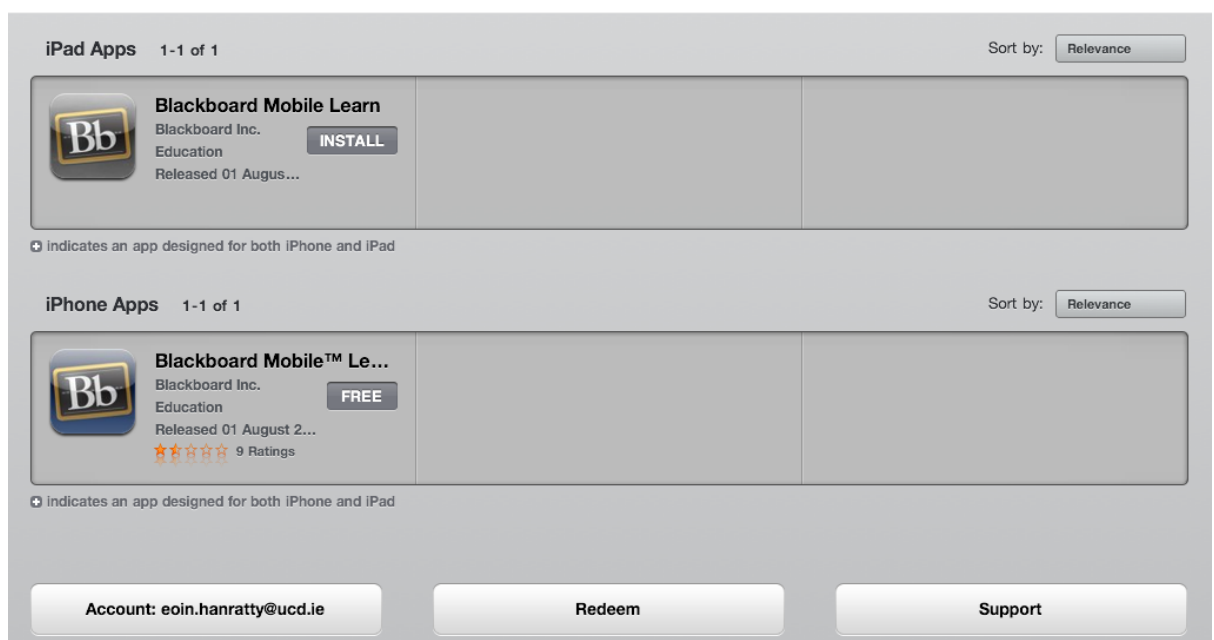

Quick Start Guide – iPad, iTouch and iPhone

Installing Blackboard Mobile Learn

Note: The *Blackboard Mobile Learn* application for iPad/iPhone/iTouch requires an active connection to a wi-fi network.

1. From the iPad/iPhone/iTouch device, launch the *App Store*
2. Sign in using a valid iTunes username and password.
3. In the Search box, enter *Blackboard Mobile Learn*.
4. When the search results appear, look for the *Blackboard Mobile Learn* application listed under the appropriate device. Make sure that it is by Blackboard Inc. and that it is free.
5. Tap the *Install* button (see screenshot below).

6. Tap the green *Install App* button to confirm and wait while the installation completes.

7. The *Blackboard Mobile Learn* icon should now appear.

Using Blackboard Mobile Learn

The panel on the left shows all Blackboard courses to which you are enrolled. On the right is the *Dashboard*. The *Dashboard* summarises activity (course announcements, new content items etc.) across all courses to which you are enrolled. The *Dashboard* can be sorted by date (default), content type or course.

Blackboard Mobile Learn

Quick Start Guide – iPad, iPod and iPhone

To access an individual course, just tap the appropriate button in the left hand panel. This will display the course menu which will allow you to access the course content, announcements, discussion boards and more.
