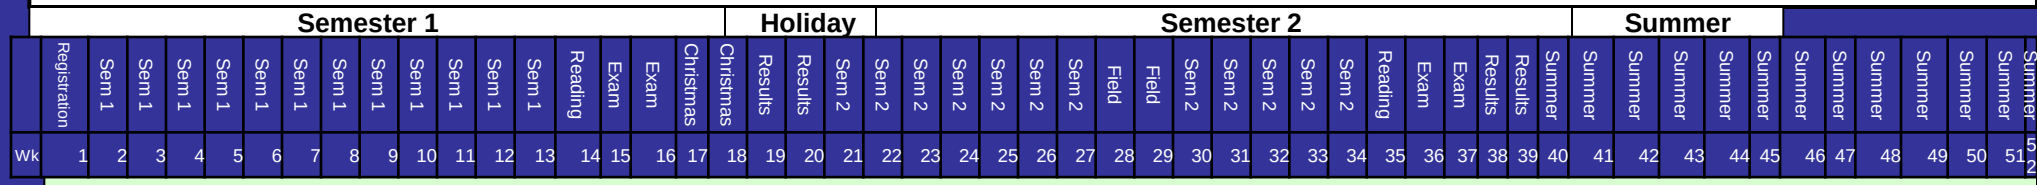
Undergraduate BSc (Hons) Radiography Programme Detail



1

- Clinical Human Anatomy I (5)
- Practice of Radiography: Upper/lower limbs/shoulder examinations (5)
- Practice of Radiography: Introduction & Spine Examinations (5)
- Introduction to Imaging Technology: Radiography (5)
- Healthcare Imaging & Information Systems (5)
- Clinical Human Anatomy II (5)
- Practice of Radiography: Chest/Abdomen/Pelvis Examinations (5)
- Clinical Practice of Radiography 1-1 (5)
- Technology of Radiography: X-Ray Interaction (5)
- Diagnostic Imaging: Applications of Radiation & Radiation Protection (5)

50 Programme credits
10 Elective credits

STAGE 1

2

- An Introduction to Physiology: Human Cells & Tissues (5)
- Technology of Radiography: Equipment (5)
- Practice of Radiography: Fluoroscopy (5)
- Practice of Radiography: Paediatrics (5)
- Physiology of Sensing & Responding to the Internal & External Environment (5)
- Physiology of the Internal Environment of the human body (5)
- Clinical Human Anatomy III (5)
- Practice of Radiography: Skull, Facial Bones, Dental Examinations (5)
- Clinical Practice of Radiography 2-1 (10)

50 Programme credits
10 Elective credits

STAGE 2

3

- Practice of Radiography: Advanced Technique Skeleton (5)
- Clinical Practice of Radiography 3-1 (10)
- Clinical Practice of Radiography 3-2 (10)
- Mechanisms of Disease (5)
- Diagnostic Imaging: Vascular Imaging (5)
- Diagnostic Imaging: Trauma Imaging (5)
- Research Methods and Statistics (5)
- Technology of Radiography: Digital/PACs Systems (5)
- Radiographic Image Appearances – *inprogramme elective* (5)

50 Programme credits
10 Elective credits

STAGE 3

4

- Systematic Pathology (5)
- Legal Medicine/ IV Theory (5)
- Diagnostic Imaging: Oncology (5)
- Technology of Radiography: QA (5)
- Practice of Radiography: Advanced Technique: Trauma/Theatre/Mammo (5)

Either

- ★ Radiography Erasmus Exchange Programme: International Radiography (5)
- ★ Erasmus Clinical Practice of Radiography (home students) (5)
- Technology of Radiography: CT (5)
- Forensic Radiography (5)
- PET / CT Imaging (5)

★ 1 of 3

- Clinical Practice of Radiography 4-1 (10)
- Research: Radiography Thesis (10)
- ★ Erasmus Radiography Abroad (15)
  (Alternative pathway for students traveling abroad on Erasmus)

45 Programme credits
15 Option credits

Final Degree Classification based on Stage 3 and Stage 4 (50:50)

STAGE 4
