TRAVEL ADVICE

BEFORE YOU GO

- Set a strong password or pin on all devices
- Encrypt your devices if carrying confidential information
- Install the latest security patches
- Use anti-virus software

WHILE YOU ARE AWAY

- Never use public computers when accessing work information
- Use the staff VPN when connecting to untrusted hotspots
- Never leave your devices unattended
- Restrict your use of social media. Don't let strangers know you are away

WHEN YOU RETURN

- Change your password

IT SECURITY AND YOU
