

UCD Cinema - Autumn Season 2014 Launched.

UCD Cinema Is delighted to launch the Autumn 2014 season of films with a very strong September line-up. The Cinema is delighted this year to trial afternoon screenings with a 3.10pm start to compliment the busy evening schedule.

September's titles include your last chance to see some of the summer blockbusters like: *Planet of the Apes*, *Guardians of the Galaxy* and *22 Jump Street*. Complimenting them are some romantic titles like *Begin again* and *The Fault in our stars*.

Fruitvale Station, is an award winning and poignant drama which portrays the tragic shooting of Oscar Grant and sits alongside *Joe* in our drama section. *Joe* another award winning drama stars Nicholas Cage and tells the story of an alcoholic who suddenly becomes an unlikely role model.

This year UCD Cinema will take part in national Culture Night on September 19th in association with the Dun Laoghaire Rathdown County Council Arts Office. On September 19th we will run 2 free screenings: *Next Goal Wins* a docu-drama about a struggling soccer team and *Chinese Puzzle* a French comedy-drama about a father moving to New York to be near his children. Each screening will be free to all members of the public – subject to availability, tickets available on our website.

UCD Cinema will continue its successful relationship with Access Cinema who facilitate our film schedules and booking of titles as we strive to provide a programme which challenges our audience and provides a financially viable business model. This year UCD Cinema's annual programme will be supported by Bus Eireann under a new advertising deal.
