

University College Dublin
An Coláiste Ollscoile, Baile Átha Cliath

— GRADUATE STUDIES —

2014

UCD has developed its graduate studies programmes in line with European best practice and with over 7,500 graduate students enrolled across seven colleges, the university has demonstrated an ongoing commitment to provide all UCD graduate students with the best possible graduate experience and education.

2014

WHY GRADUATE STUDIES?

- Ranked within top 1% of higher education institutions world-wide
- UCD is the largest provider of graduate education in Ireland with 7,500 students enrolled
- UCD PhD students account for 20% of the Irish University PhD Sector
- UCD is a diverse University both in academic disciplines and culture
- UCD Michael Smurfit Graduate Business School was consistently ranked amongst the top 100 business schools in the world over the last 10 years
- UCD is an integral part of Dublin, capital city of Ireland and gateway to Europe. The campus covers 132 hectares
- There are currently 5,500 international students enrolled, representing 121 countries

TABLE OF CONTENTS

UCD COLLEGE OF AGRICULTURE FOOD SCIENCE & VETERINARY MEDICINE

The College of Agriculture, Food Science & Veterinary Medicine contains the School of Agriculture and Food Science and the School of Veterinary Medicine and delivers a broad range of undergraduate and postgraduate programmes in the areas of Agriculture, Environment, Food Science, Human Nutrition, and Veterinary Sciences. The College is committed to delivering excellence in teaching, research and innovation.

The mission of the College is to develop and apply science and engineering scholarship to problems in animal health and welfare, human health, food systems and agriculture for the benefit of society through excellence in teaching and research. The College supports the indigenous agri-food and animal health industries in Ireland by educating students to become industry leaders and by conducting world class, cutting edge research. The College is a centre of expertise in the sciences underpinning the safety

of the food chain, food quality, animal health and welfare and public health. Research and education in companion and sport animal health and welfare are also an important part of our mission.

Our research contributes to an improvement in the sustainability of agriculture, health and welfare of animals and humans, quality and security of food and consumer wellbeing. The research ethos of the College is to foster curiosity-based and hypothesis-driven research to best international standards on areas of key strategic relevance to Ireland. Furthermore, our research encompasses basic discovery of biological mechanisms, the application of knowledge to problem solving, both on-farm and during processing, and the translation of scientific discoveries into clinical applications. The interdisciplinary nature of our research programmes makes the College of Agriculture, Food Science & Veterinary Medicine an interesting and exciting area in which to work and study.

UCD SCHOOL OF AGRICULTURE AND FOOD SCIENCE

The mission of the School of Agriculture and Food Science is to develop and apply science and engineering scholarship to applications across the agri-food disciplines for the benefit of society through excellence in education, research and innovation.

Our research contributes to an improvement in the sustainability of agriculture and the environment, the health and welfare of animals and humans, the quality and security of food and consumer wellbeing. Furthermore, it encompasses the basic discovery of biological mechanisms, the application of knowledge to problem solving, both on farm and in downstream processing, and the translation of scientific discoveries.

The School has a broad research agenda, which accounts for approximately 25% of externally funded research income to UCD and a cohort of over 50 academics, a similar number of postdoctoral researchers and ca. 200 PhD and 65 Masters Students which are a major intellectual resource, with significant research outputs in terms of peer-reviewed publications and citations.

Our research ethos is to foster curiosity-based and hypothesis-driven research to best international standards in areas of key strategic relevance to Ireland while encouraging multidisciplinary collaboration, both within and beyond the school where warranted.

UCD INSTITUTE OF FOOD AND HEALTH

The UCD Institute of Food and Health is a major campus-wide initiative at University College Dublin to develop and conduct world class, multidisciplinary research into food and health. The Institute is unique in Ireland and Europe in bringing together leading academics within UCD from all areas of food and health research.

Research within the Institute is divided into four areas or research themes:

- Food Quality and Processing
- Food Safety
- Integrated Nutrition and Health
- Food chain integrity and sustainability

CENTRE FOR HUMANITARIAN ACTION

The UCD Centre for Humanitarian Action (CHA) was established in 2012 to reaffirm UCD's commitment to excellence in research, innovation and professional development in the field of humanitarian action.

The Centre is built on the strong foundations of an internationally recognised Master's programme in humanitarian action that has produced in excess of 300 postgraduates and has collaborated with various governmental and non-governmental organisations around the globe for applied research and policy analysis.

The CHA delivers an undergraduate module, a taught MSc programme, a research-based MPhil, and a PhD programme. Students from over 15 countries work together at the CHA in a collaborative and multi-disciplinary environment. As well as teaching, the core objective of the research activities undertaken at the CHA is to deepen the understanding of contemporary humanitarian challenges in order to promote evidence-based humanitarian response.

REPRODUCTIVE BIOLOGY RESEARCH CLUSTER

The School is home to the Reproductive Biology Research Cluster, a major nationally funded research programme from SFI under its Strategic Research Cluster initiative. Primary Investigators from the School are key participants in the UCD Conway Institute and the UCD Institute of Food and Health.

These institutes provide a key mechanism for creating a critical mass in targeted research areas of cell and system biology, translational medicine, and food, nutrition and health.

STAFF & RESEARCH STRENGTHS

The School has a very active research programme comprising 51 Principal Investigators, 134 graduate students and 52 contract research staff .

The School's research activities seek to:

- n Advance efficient and sustainable animal and crop production to contribute to national targets and adhere to policy reform.
- n Develop and evaluate sustainable land use.

- n Advance the economic management and performance of the food chain and contribute to policies and programmes in rural and agricultural development.
- n Optimise the quality of foods to enhance the health and wellbeing of consumers.

STAFF PROFILE:

PROF DOLORES O'RIORDAN
ASSOCIATE DEAN OF RESEARCH AND INNOVATION

Researchers at UCD's School of Agriculture and Food Science are progressive and innovative. We are determined to place UCD at the forefront of Agriculture and Food research internationally, delivering value to the industry sector and attracting continued investment in the sector from overseas. Researchers take an entrepreneurial approach creating tangible commercial outputs from their research. Postgraduate students are pivotal to the success of our research team. The school offers many opportunities to undertake research masters and PhDs. We constantly seek the best graduates and postdoctoral fellows to undertake research, in our dynamic and multidisciplinary environment. Our staff are highly competent and our programmes are housed in state of the art infrastructure. If you are interested in a research career in Agriculture and Food Science we would welcome the opportunity to discuss our research programmes with you.

GRADUATE PROFILE:

AIDAN COTTER
CHIEF EXECUTIVE, BORD BIA

This degree provided a valuable starting point for my career. The broad business and science content provided me with an overall view of the important agri-food sector and enabled me to get involved with many aspects of the industry as I developed my career.

Agricultural Economics Graduate

INNOVATION

The School has an active innovation programme which focuses on maximising the impact of School research and innovation to benefit the Irish Agri-food industry, the wider economy and society.

The School has established a School Innovation Platform which is a structured programme providing

individual researchers with a detailed understanding of the processes required taking an output of their research and turning it into an exploitable product or service. Researchers from within the School have successfully commercialised the products of their research and established 5 spinout companies.

CAREER OPPORTUNITIES

The School of Agriculture and Food Science is the first destination of choice for students interested in studying agriculture and food science in Ireland. The School has an excellent reputation nationally and internationally. Many UCD School of Agriculture and Food Science graduates occupy senior roles in agri-food industry in Ireland and across the world.

Degrees offered at UCD are constantly changing to reflect and create new opportunities for graduates, to respond to global demands and employer requirements and to continue to remain at the forefront of innovation and developments in agricultural and food education. This is one of the reasons why the School continues to be so highly regarded within the agri-food and wider industries.

POSTGRADUATE STUDY

Taught degrees provide the student with a highly structured learning environment in which to study their chosen subject, whereas research degrees give students the opportunity to conduct their own research under the close supervision of their supervisor.

We provide a range of taught graduate programmes at certificate, diploma and masters level. These courses are modularised to facilitate access, continuing professional education and life-long learning.

The UCD School of Agriculture and Food Science offers nine graduate taught programmes as listed on the following pages

We also provide graduate research opportunities at Master's and Doctoral degree levels and allow students the opportunity to play an active role in UCD's flourishing research community.

ADMISSION REQUIREMENTS

Graduate Taught: Admissions requirements vary from programme to programme. Candidates are advised to contact the UCD School of Agriculture and Food Science Programme Office to find out about entry requirements for a particular programme. Programme contact details are provided on the following pages.

Graduate Research: Candidates must have obtained an honours standard in a relevant primary degree from a recognised higher education institution. Candidates are advised to contact the UCD School of Agriculture and Food Science Programme Office to find out about entry requirements for a particular programme. Programme contact details are provided on the following pages.

UCD SCHOOL OF VETERINARY MEDICINE

The aim of the graduate certificate programmes taught by the School of Veterinary Medicine (Dairy Herd Health, Equine Sports Medicine, Canine Sports Medicine and Veterinary Practice Management) is to educate veterinary graduates to a higher level in specific fields of veterinary clinical practice as well as offering the opportunity to undertake business training specific to the veterinary sector. Such specific education is beyond the scope of the existing MVB programme and this level of additional training is becoming increasingly more important for vets wishing to practice in specific disciplines and run successful businesses.

The programmes equip veterinary professionals with the necessary skills, knowledge and competencies vital to pursuing a high level of practice in their

chosen field and explore recent developments on key subjects specific to the discipline in question.

The School of Veterinary Medicine Strategic Plan is a 'cradle to grave' education for the Veterinary profession and these programmes give qualified vets the opportunity of continuing education throughout their career, maintaining their standards and introducing the latest techniques to their chosen field. The development of these programmes is also in keeping with the mandatory requirement of the Veterinary Council of Ireland for all registered veterinary practitioners to engage in Continuing Veterinary Education.

UCD COLLEGE OF ARTS & CELTIC STUDIES

The UCD College of Arts and Celtic Studies offers a world-class graduate learning and research environment. With eight schools and a range of associated research centres and institutes, the College supports full and part time programmes in a diverse array of specialised areas, not least in: American studies, archaeology, art history, classics, diaspora studies, drama, film studies, gender studies, English, history, archivistics, folklore, Irish studies, linguistics, the media, modern European languages, and music. Increasing numbers of our graduate courses offer internships as part of the curriculum.

Whether as part of a Graduate Diploma, Taught Masters, Research Masters or Doctoral Programme, higher study in the Arts and Humanities offers the opportunity to challenge established ideas and assumptions as well as to gain vital knowledge and skills. Our courses are structured to hone critical skills acquired during undergraduate study, but above all to value and foster independent thinking and intellectual curiosity.

SCHOOLS

HOW EMPLOYERS SEE OUR GRADUATES:

The skills acquired in our graduate programmes empower our students not only to secure positions in a wide range of sectors, but also to flourish over the course of their careers. Our alumni are to be found in a truly astonishing breadth of posts in many of the world's leading companies and organisations.

'As a large employer of graduates, KPMG places specific focus on attracting UCD students to the firm. Arts and Humanities students bring a holistic perspective which is a valuable trait when it comes to issue resolution, relationship management and we found them to be 'employer ready' at an interview. As employees, they are highly confident, articulate and successful – our Managing Partner is an Arts graduate as are many more throughout the firm.'

Paul Vance, Director, Human Resources, KPMG.

'Arts students tend to be more adaptable and open minded. I believe that this adaptability is a result of the diversity of their studies.'

Sean Cooney, SABIS

'Accenture seeks bright, innovative and highly motivated candidates, who will excel in a fast paced, competitive and client-facing environment. Experience has shown UCD graduates from all disciplines, including Arts and Humanities, to possess the attributes and skills needed to thrive in our business and deliver high quality and innovative solutions for which Accenture is renowned.'

Hilary O'Meara, Head of Accenture's Technology Growth Platform in Ireland

STUDENT PROFILES:

STUDENT PROFILE:

LEANNE BLANEY
MA IN THE HISTORY OF THE MEDIA
CLASS OF 2012

'This course is the perfect choice for anyone keen to advance their interest in History to graduate-level with the opportunity to gain practical experience and knowledge of contemporary Irish Media. Key skills in communication and research gained at undergraduate level will be improved and refined to a professional standard. The MA, in my opinion, unparalleled with any other graduate course offered in an Irish third-level institute. The opportunity to combine academic learning with practical skills, such as learning how to script and edit an historical documentary provides the student with a variety of skills that will set them apart in the eyes of employers.'

STUDENT PROFILE:

ELIZABETH ELLIOTT
SCHOOL OF ARCHAEOLOGY
CLASS OF 2009

'In my current Job as project Manager for a Fortune 500 company I leverage the skills I developed at the UCD School of Archaeology on a daily basis. From day one, my enthusiastic and highly-skilled professors taught me to embrace innovation and always question the status quo. While working on my thesis, they helped me to develop strong analytical capabilities and project management skills.

My experience studying in a different country, hugely enjoyable and memorable, gave me the invaluable experience of learning in a different culture.

Thanks to my experience with the UCD School of Archaeology, I developed a unique skill set that allows me to design and manage projects across the corporate and cultural divide and create sustainable solutions at work.'

ADMISSIONS AND ENTRANCE REQUIREMENTS

For Higher Diploma, Graduate Diploma and Masters courses, applications can be made immediately through our UCD Applications system www.ucd.ie/apply

For research degrees it is advisable to talk through your proposal with a prospective supervisor in the College in advance of submitting a formal application. Full faculty listings can be found on School websites – see www.ucd.ie/colleges.html for more information.

Unless otherwise stated, applications can be made at any point up to the beginning of the academic year. However, early application is advisable, as demand on courses can be high.

For our diploma programmes, a good 2.2 result in the BA is normally the minimum entrance requirement. The standard entrance requirement for our Masters programmes is a 2.1 in a primary degree (or 3.2 UCD GPA equivalent).

Some programmes have slightly different requirements and may consider applicants with slightly lower qualifications. If you have any questions about your eligibility for a programme, it would be worth speaking in the first instance with the relevant admissions tutor prior to submitting an application.

For our research degrees, prospective students will normally hold at least a 2.1 in their BA qualification, with a similar level of performance in a masters programme.

UCD COLLEGE OF ARTS & CELTIC STUDIES

“For me, the MA in Gender, Sexuality and Culture was both life-changing and life-affirming. It challenged my assumptions and opened up new ways of thinking, new fields of knowledge. I came to the Masters as a mature student and it was apparent from the outset that the instructors valued the life experience and points of view that I brought to the classes, which really built my confidence. The instructors allowed me to gear my learning curve and assignments around my field of interest and provided me with the in-depth theoretical and historical frameworks that I needed to progress to the PhD. But, as a mature student, the programme worked for me on many other levels. The teaching team helped me fine tune my critical writing skills, all the while being sensitive to the needs, flexibility and support systems that mature students need at this level. While writing the thesis, my Masters supervisor set deadlines and meetings that suited my family commitments. When the time came to apply for a PhD and find a supervisor I received excellent support and guidance, which is still in place today.”

*Cormac O'Brien,
MA in Gender, Sexuality and Culture, Class of 2009*

UCD Graduate Studies Course Listings

UCD MICHAEL SMURFIT GRADUATE BUSINESS SCHOOL

UCD Michael Smurfit Graduate Business School is the leading graduate business school in Ireland, offering a wide range of courses, including MBA, PhD, specialist masters for business and non-business graduates as well as executive education. The School of Business at UCD has a long and distinguished history since it was established in 1908. We were one of the first European universities to offer an MBA in 1964. In 1991, the graduate school of business moved to a dedicated campus in Blackrock.

UCD Smurfit School is one of less than 60 schools worldwide to achieve the Triple Crown of Accreditation from EQUIS (Europe), AACSB (US) and AMBA (UK). We are also the only Irish member of both CEMS and the Global Network for Advanced Management, which are global alliances of leading business schools.

We are the only Irish business school to offer Masters degrees that are consistently ranked in the world's top 100 by the Financial Times and The Economist Intelligence Unit.

UCD Smurfit School is a 100 strong team with one mission: To create the future leaders in business. One of the keystones of our reputation as one of the world's leading business schools is the quality and expertise of our Faculty. At UCD Smurfit School we recruit leading academics from across the world, many with experience from the world's leading universities. This, together with their business experience, enables them to create a stimulating environment both in teaching and research.

OUR COURSES

At UCD Smurfit School we offer a wide range of courses including full-time and part-time MBA, PhD, specialist masters across diverse subject areas including Accounting, Finance, Management, Marketing, HRM, Management Information Systems and Technology as well as open enrolment and customised courses in Executive Education.

Our courses combine lectures, seminars, case studies, role playing, leading industry guest speakers, simulations and practical projects. Many offer internships. You are encouraged to challenge yourself and those around you, so you can thrive in a rigorous but very open minded learning environment.

Each year we have in the region of 1200 graduates. Our research community has nearly 60 PhD and research students.

CAREERS

Our graduates are in high demand. Up to 90% of our 2011 graduates were in employment within 6 months. To help you towards potential graduate employment, we offer a dedicated career guidance service under the direction of a trained and experienced recruitment specialist. Our MSc Career Manager is available throughout the year for one-to-one consultations, to help you identify career opportunities and provide support to you with your career planning. Employability skills workshops are held on campus regularly. These include workshops on writing CVs, graduate applications, interview skills and creative job searching.

The Career Development Centre welcomes many employers and guest speakers throughout the academic year and student are kept informed of opportunities to meet with visiting speakers from corporate organisations and recent graduates. We also hold career fairs on campus which are attended by leading companies such as KPMG, Kerry Group, First Derivatives, Tullow Oil, Microsoft, Paddy Power, Unilever, P&G, Google and many more.

The school also offers our MBA students a dedicated MBA Career Service which aims to assist participants in building long-term career strategies

ADMISSIONS

Detailed information on entry requirements per course and the admissions procedure are available on our website. All applications must be submitted online.

Applications are assessed on a rolling basis. However, we do advise all candidates to apply as early as possible as competition for places means that some courses fill up quickly.

For further information please contact the Admissions Team:

Ph: + 353 1 7168058/4302/8885

Email: smurfit.admissions@ucd.ie

www.smurfitschool.ie

SCHOLARSHIPS

UCD Smurfit School is delighted to offer a range of need- and merit-based scholarships across a

number of courses.

Please visit our website for further details.

EXECUTIVE EDUCATION

We have an evolving portfolio of open enrolment programmes that are designed to develop participants' management skills and business knowledge across a range of subject areas. These programmes are delivered by faculty experts and industry leaders utilising latest industry research to provide contemporary course content. The teaching methodologies used are highly applied and interactive and are aimed at enabling the participant to use the skills in their organisation.

Our open programmes are available to executives from all organisations across all industry sectors.

We pay particular attention to ensure that, for a given programme, all participants have similar learning objectives and broadly similar background and experience in order to maximise the potential for peer to peer interaction, learning and networking. For further information please visit:

www.smurfitschool.ie/executiveeducation/openenrolmentprogrammes/

Contact: 01 7168889 or email exec.ed@ucd.ie

STUDENT PROFILE:

CIAN O'SULLIVAN
MACC 2011
TAX SPECIALIST, PWC & MEMBER OF DUBLIN
SENIOR FOOTBALL TEAM, ALL- IRELAND WINNERS
2011

"For me, the Masters of Accounting was the perfect stepping stone to professional accounting exams and to a career in taxation. A strong focus on technical accounting facilitated an ideal learning environment resulting in enhanced knowledge and understanding of the subject areas. In addition, the skills acquired through the MAcc qualification provided graduates with an 'edge' over their prospective professional colleagues in what has become a highly competitive profession. Overall, it was a fantastic learning experience and a thoroughly fulfilling year."

STUDENT PROFILE:

MAEVE FARRELL,
MSC IN STRATEGIC MANAGEMENT AND PLANNING,
2011. MANAGEMENT CONSULTANT AT ACCENTURE,
IRELAND.

"Learning from world class faculty and working with a diverse group of students, the MSc in Strategic Management Planning allowed me to develop my teamwork, leadership, critical thinking and problem solving skills. The experience has proved invaluable to my career in consulting so far."

UCD MICHAEL SMURFIT GRADUATE
BUSINESS SCHOOL

“Our faculty is drawn from a group of academics who have extensive experience of course delivery internationally. Moreover, the majority of faculty members, have received training at leading business schools in the UK and North America and are active contributors to the development of knowledge and intellectual leadership in their fields through extensive involvement in delivering papers at conferences and publishing in leading journals.”

*Prof Pat Gibbons,
Jefferson Smurfit
Professor of Strategic Management,
UCD Smurfit School.*

UCD SUTHERLAND SCHOOL OF LAW

A UCD Sutherland School of Law degree is one of the most highly regarded and respected qualifications. UCD Sutherland School offers a wide range of graduate degree and diploma programmes as well as Doctoral study opportunities. The School has a faculty with an international reputation in areas such as Corporate and Commercial Law including International Business Law, Competition and Anti-Trust Law, European Law, Intellectual Property and IT Law, International Human Rights Law, International Criminal Law and Criminology, Regulation and Governance, many of whom also have direct links with Ireland's leading global law firms and with Government.

UCD Sutherland School maintains a very diverse, multi-cultural student population, recognising the fact that we have earned a reputation on the international stage. Our international students come to study here from Europe and beyond, including China, Saudi Arabia, America, Australia and Africa. Some PhD scholarships may also offer an opportunity for international students to come to UCD Sutherland School to take up study. Our links with international Universities also allow our students to study abroad during their graduate programme.

The School's new, state-of-the-art building house's the first purpose-built Clinical Legal Education Centre in the country, as well as advanced research facilities, providing an opportunity to link academic knowledge to the development of skills.

CAREERS

In many legal careers and careers for which legal knowledge is advantageous, a masters qualification from a leading law school, such as UCD Sutherland School, provides an outstanding way to distinguish yourself from others and to demonstrate a greater depth of knowledge and wider range of relevant skills.

For non-law graduates the MCL degree is recognised by the King's Inns as a qualifying degree for the next stage towards earning the barrister at law qualification, and it also provides an outstanding preparation for entry to the solicitors' profession both in Ireland and in other common law jurisdictions.

For professionals seeking to learn and to demonstrate knowledge in new areas, our Diploma qualifications in Employment Law and Arbitration are ideal.

Our doctoral programmes provide an outstanding training and experience of legal research. Many of our students go on to successful careers with leading employers in academia, public policy and law in Ireland and overseas.

2014

UCD COLLEGE OF ENGINEERING & ARCHITECTURE

UCD Engineering and UCD Architecture with over 100 years of history and experience, comprise Ireland's largest research and educational community of Engineers and Architects.

UCD Engineering degrees are accredited by Engineers Ireland and the Institute of Chemical Engineers (ICHEME).

The MArch degree is the only course of Architecture in Ireland that is accredited by the recognised professional institutes in both Ireland and the United Kingdom (RIAI & RIBA). In addition, accreditation

is being pursued with the National Architectural Accrediting Board (NAAB) in the USA.

In addition to the supports offered by the Engineering and Architecture Programme Office, the UCD College of Engineering & Architecture has a dedicated Graduate School Manager to support graduate students, both research and taught.

SCHOOLS

UCD School of Architecture

UCD School of Chemical & Bioprocess Engineering

UCD School of Civil, Structural & Environmental Engineering

UCD School of Electrical, Electronic & Communications Engineering

UCD School of Mechanical & Materials Engineering

NUMBER OF PG STUDENTS:

348 Taught

244 Research
(including 212
PhD)

TOTAL = 592

INDUSTRY RESEARCH COLLABORATIONS:

Industry Research Collaborations:
Electricity Research Centre (ERC)
Solar Energy Conversion

ACADEMIC RESEARCH CENTRES:

Water Resources Research
Bridge and Transport
Bioengineering
Manufacturing Engineering
Materials Science and Engineering
Communications and Optoelectronics
Adhesion and Adhesives

AWARD TYPES:

PhD
MArch
MArchSc
ME
MEngSc
MSc
ProfDip
ProfCert

STAFF & RESEARCH STRENGTHS:

Internationally recognised in their fields, the staff in the UCD College of Engineering & Architecture lead a number of research themes that represent the majority of our research and innovation activities, from individual scholarship through to large-scale interdisciplinary programmes and on to more applied research, technology development and engagement with industry.

Research themes include Energy, Bioengineering, Internet of Things Engineering, Materials and

Manufacturing, Transport, Water, Biopharma, Design, and Food Engineering.

Collaborations vary from bilateral partnerships to large-scale programmes such as Strategic Research Clusters and Competence Centres involving multiple partners including industry, national agencies and academia.

[Video: Engineering in Zero Gravity at UCD](#)

CAREER OPPORTUNITIES:

The UCD College of Engineering and Architecture has many active industry collaborations that have the potential for significant technology transfer activity in the future.

We are committed to increasing levels of collaboration and partnership with Irish and international industry through partnerships on small or large scale R&D projects.

Professional Work Experience (PWE) of 6-8 months paid placement is offered as an integral part of the ME (Master of Engineering) courses. Placements have included the following companies: Accenture, Arup Engineering, Boston Scientific, DePuy, Duolog, Eirgrid, Glen Dimplex, Jaguar Land Rover, S3.

Actively engaged and offering events throughout the year, the UCD Engineering Graduates Association (EGA) is UCD Engineering's alumni network.

STAFF PROFILE:

**PROF TONY FAGAN,
COLLEGE VICE-PRINCIPAL FOR RESEARCH &
INNOVATION & GRADUATE SCHOOL DIRECTOR
(RESEARCH)**

UCD School of Electrical, Electronic & Communications Engineering

Prof Tony Fagan is Director of the Electronic and Computer Engineering programmes in UCD. Professor Fagan's main research interest is in the application of DSP (digital signal processing) techniques to advanced digital fixed-line and wireless communications, with a particular interest in equalisation and detection methods. He also has interests in the areas of speech, audio and image processing.

STUDENT PROFILE:

**LAURA TOBIN
PHD CANDIDATE IN OPTICAL ENGINEERING
(SOLAR ENERGY)**

I have really enjoyed being part of and contributing to UCD during my time here. I've had many opportunities and experiences given to me that I would not otherwise have had, in areas that I never thought possible. I have organised and participated in outreach events nationally and internationally (South Africa). While studying at UCD, I have been able to participate in workshops such as REACH (Researchers Engaging Audiences & Communicating Highlights) to improve my communication and media skills to promote my research and have obtained a Postgraduate Certificate in Innovation and Entrepreneurship from the Innovation Academy. My postgraduate study hasn't just been about achieving my PhD but learning a wide range of new skills that can be applied to both my professional and personal life.

"For as long as I can remember I always wanted to do engineering, and I chose to do Mechanical Engineering in UCD because I had a 'hands on' approach to all things mechanical (especially engines) while growing up, and I wanted to learn how and why things work the way they do. After I finished my undergraduate degree, I did a masters course (MSc) in racing engine design in the UK, after which I decided to come back to UCD to do my PhD research in gasoline emissions.

I'm nearly finished my PhD research and I'm currently employed by Ferrari in Italy, where the work I do on engine design and testing feeds into my research. I've worked really hard to make this dream of working on high-performance cars a reality and UCD has given me the platform."

Ian Whelan
PhD Student

UCD COLLEGE OF HEALTH SCIENCES

UCD College of Health Sciences has a proud history of delivering excellence in graduate education for healthcare professionals in Ireland and overseas. Located in the UCD Science District on the Belfield Campus, UCD Health Sciences Centre is home to three constituent Schools:

UCD School of Medicine & Medical Science
UCD School of Nursing, Midwifery & Health Systems
UCD School of Public Health, Physiotherapy & Population Science

At graduate level the college offers a portfolio of more than 140 courses, targeted towards a range of healthcare professionals including; hospital doctors, general practitioners, nurses, midwives, physiotherapists, radiographers and professionals working in food safety. The college also offers

courses and modules designed to cater for the development and training needs of healthcare managers and ICT professionals working in the health sector.

Our varied course offering is designed with busy healthcare professionals in mind, and so programmes typically include an emphasis on distance / online learning, as well as off-campus teaching and flexible course hours. Many courses are delivered full or part-time and can be customised to fit around your schedule.

Our graduate courses are designed and delivered by leading academic and clinical experts, in a highly research active environment and across Ireland's most extensive network of clinical and community healthcare locations.

2014

UCD COLLEGE OF HUMAN SCIENCES

UCD College of Human Sciences, with over 200 staff and almost 4,500 students, is one of the largest and most dynamic in UCD. It consists of ten Schools that bring together the social sciences, a range of interdisciplinary areas, and other disciplines including Psychology, Geography and Philosophy. With a wide range of graduate programmes and a large body of doctoral students, the College provides a collaborative and supportive environment for graduate students.

The College of Human Sciences is exceptionally research active, and its staff publish extensively in leading academic journals and in books, and have been responsible for a great deal of cutting-edge research. The College is committed to disciplinary and interdisciplinary teaching and research and

has links with numerous universities and research institutes in Europe and beyond. Within UCD, it is aligned with the Geary Institute, one of Ireland's leading social science institutes. Academics in Human Sciences have received research awards from a range of Irish institutions including the Irish Research Council (IRC), the Royal Irish Academy (RIA), the Environmental Protection Agency (EPA), and through European Union framework programmes.

The wide range of fascinating, challenging and socially relevant programmes available in Human Sciences demonstrates the richness of the College's teaching programmes, the strength and diversity of its research, and its commitment to placing the university in a leading position in Irish society.

SCHOOLS

UCD School of Applied Social Science

UCD School of Economics

UCD School of Education

UCD School of Geography, Planning & Environmental Policy

UCD School of Information & Library Studies

UCD School of Philosophy

UCD School of Politics and International Relations

UCD School of Psychology

UCD School of Social Justice

UCD School of Sociology

NUMBER OF POSTGRADUATE STUDENTS:

957 Taught

259 Research

TOTAL = 1216

RESEARCH INSTITUTES & RESEARCH CENTRES:

Centre for Disability Studies
UCD Dublin European Institute
Equality Studies Centre
Institute for British Irish Studies
UCD International Centre for Newman Studies
Social Science Research Centre
Women's Studies Centre

AWARD TYPES:

Higher Diploma
Prof. Diploma in Education
Graduate Diploma
Masters Degree (taught)
Masters Degree (research)
Doctoral Degree (research)

GRADUATE SCHOLARSHIP OPPORTUNITIES:

Scholarship schemes are available to assist students to pursue research in selected Human Sciences subjects in UCD. External funding may also be available through the Irish Research Council or employer-sponsored schemes. Schools

in the College of Human Sciences can offer advice and assistance to help students to source finance for their graduate studies.

STAFF PROFILE:

**DR MARK SCOTT,
HEAD OF UCD SCHOOL OF GEOGRAPHY,
PLANNING & ENVIRONMENTAL POLICY**

The overarching theme of Mark's research is to investigate the role of spatial or territorial policies in building more sustainable or resilient places (cities, regions and rural areas) in the face of increasingly complex ecological, social and economic challenges. His research interests revolve around three themes – rural development; spatial planning and the geographies of housing; and environmental planning, design and policy. Mark has held research grants from the Irish Research Council for Humanities and Social Sciences, the Royal Irish Academy, the Environmental Protection Agency's STRIVE Programme, and the Department of Environment, Heritage and Local Government totalling over 1.6m Euro. He has acted as a consultant on spatial and environmental planning to the Northern Ireland Housing Executive, the Northern Ireland Assembly Environment Committee, and the Joint Oireachtas (Irish Parliament) Committee for the Environment, Heritage and Local Government. Mark is currently a Leader of the Environmental Policy & Economics Cluster in the UCD Earth Institute.

STUDENT PROFILE:

**DR JENNIFER HAYES,
PRINCIPAL CLINICAL PSYCHOLOGIST, HEALTH
SERVICE EXECUTIVE**

I would consider my training with the UCD School of Psychology as one of the key factors in launching my career as a clinical psychologist. This training equipped me with all the skills that I needed to work as a clinical psychologist in the health service and enabled me to contribute in a meaningful and significant way to the provision of clinical psychology services. The emphasis on evidence-based practice and research is palpable at every juncture and the high quality of teaching provided is at the cutting edge of national and international psychological knowledge. Teaching staff go about their work with enthusiasm, dedication and a determination to support and empower psychologists in training to develop into competent, confident and effective clinicians.

STAFF & RESEARCH STRENGTHS:

The central strategic priority area to which much of the activity in the College of Human Sciences relates is 'Culture, Economy and Society,' of which 'Society and Economy' is a key theme. The world's major socio-economic problems are complex in nature, they are systemic in form, they are interconnected in expression and they demand urgent attention by government and scholars. Against a backdrop of global financial crisis and economic downturn, researchers in the College are investigating the intended and unintended impacts and consequences of public policies. The role, rights, and welfare of individuals in contemporary society are being explored and the changing perspectives on belonging, identity and citizenship in what is an increasingly urbanised modern setting are being disentangled.

The following are the core areas of focus for this domain:

- Identity, Conflict and Inclusion
- Innovative, Ethical Public Policy and Enhancing the Public Sphere
- Human Development and Flourishing/Child and Youth Wellbeing
- Smart Cities

Research being undertaken in the College also maps to another key theme 'Culture and Change,' and to the University's strategic priorities 'Health,' 'Information, Computation and Communications' and 'Energy and Environment.'

CAREER OPPORTUNITIES:

Human Sciences subjects help graduates to develop an understanding of the rich diversity of different cultures and gain an awareness of social, political and philosophical debates.

Graduates' capacity to connect different ideas and concepts enables them to propose solutions to social, business, personal, governmental and environmental problems, useful in many employment situations. Employers also appreciate graduates' ability to understand, manipulate and draw policy inferences from large quantities of information and to identify key priorities for public and private sector policy. Being able to present yourself, your ideas and those of others to specific audiences also enhances your employability.

Human Sciences subjects are chosen by many of today's leaders in business, administration, the arts and the media at home and abroad. The College of Human Sciences also includes professionally accredited programmes in Psychology, Education, Library Studies, Social Work, and Urban Planning. Students obtain important life and employment skills such as critical thinking and analysis and learn how to be adaptable and flexible in a constantly changing socio-economic, political and industrial society. Graduate programmes in human sciences open doors to a huge array of careers including media and publishing, education, the environmental sector, community development, business, international trade and diplomacy and government among many others.

ADMISSIONS

The admission criteria for entry to programmes vary within each School. Prospective students should check the entry requirements with the School for the programme to which they wish to apply or contact the School for more information. However, it is generally the case that Schools expect students to have a minimum

honours-level degree for entry to a taught Masters programme and an honours-level Masters degree to be considered for entry onto a PhD programme.

UCD COLLEGE OF SCIENCE

Building on a long and distinguished reputation, the UCD College of Science is the largest and most dynamic science research and training facility in Ireland. The College provides world-class research and learning facilities for undergraduate BSc, graduate MSc (both taught and research) and PhD students. Working with internationally-recognised academics, research students in UCD Science tackle questions of vital importance in the areas of human, animal, environmental and global welfare in a supportive, creative community within key thematic areas including:

- Biotechnology, Biomedical & Pharmaceutical Sciences

- Computer Science and Informatics
- Energy and Environment
- Health and Healthcare Delivery
- Mathematics and Finance
- Nanotechnology
- Physical and Geological Sciences

The College is dedicated to the creation, delivery and communication of new knowledge and innovation across the spectrum of Science. With a staff of 750 and a student population of 5,500, including 1,800 postgraduate students, the College is a vibrant community dedicated to excellence in all our pursuits.

UCD SCIENCE RESEARCH INSTITUTES AND CENTRES

Increasingly 'big' questions require answers that draw on a multitude of skills often situated at the interface of disciplines; for this reason UCD created several institutes and centres, which connect knowledge across boundaries and break down academic silos.

Academics from across UCD Science address the research questions of these institutes and centres, for example examining green energy and the environment, biomedical research, complex

numerical systems, nanotechnology, sensors and the interface of biology and technology. Research students in UCD Science are increasingly involved in multi-disciplinary programmes and themes that are supported by the Schools and associated research institutes and centres.

Visit our 'Research Showcase'
www.ucd.ie/science/research_showcase.html

RESEARCH INSTITUTES & CENTRES

UCD Centre for Cybersecurity and Cybercrime Investigation

UCD Conway Institute for Biomolecular and Biomedical Research

UCD Complex and Adaptive Systems Laboratory

UCD Centre for Synthesis and Chemical Biology

UCD Earth Institute

UCD Centre for BioNano Interactions

SCHOOLS

UCD School of Biology and Environmental Science

UCD School of Biomolecular and Biomedical Science

UCD School of Chemistry and Chemical Biology

UCD School of Computer Science and Informatics

UCD School of Geological Sciences

UCD School of Mathematical Sciences

UCD School of Physics

The Schools and associated research institutes and centres engage in exciting and internationally recognised research, which is funded by a variety of agencies including Science Foundation Ireland, the European Union, the Health Research Board, the Irish Research Council and the Wellcome Trust. Reflecting the level of funding and productivity of over 600 postgraduate research students and a large body of postdoctoral scientists, who

play a key role in the research efforts. Investment in infrastructure, which is crucial to the continued excellence in research training and output, is a continuing priority of UCD's strategy and is exemplified most recently with the upgrading of the UCD Science Centre.

INNOVATION

Together with teaching and research, innovation is recognised as a third pillar encompassing university activity. In conjunction with UCD's Innovation and Technology Transfer Centre, Nova UCD, communication of the research on-going in UCD Science is realised through licencing arrangements with established enterprises and the development

of spin-out companies including:

1. Celtic Catalysts
2. HeyStaks Technologies
3. Changing Worlds
4. Enzolve Technologies

GRADUATE SCIENCE COURSES:

Taught Masters Science Courses

UCD Science has a broad range of Taught Masters courses across key thematic strands, outlined above. A current list of these courses can be located at:

www.ucd.ie/science/ucd_taught_graduate_studies.html

These courses are modularised in a credit-based curriculum to facilitate choice, flexibility, access, continuing professional development and life-long learning for the student. An e-learning environment is also supported. Innovation is an important element of each course. Courses are cross disciplinary incorporating collaboration between Science and Engineering, Business and Human Sciences. The Taught Masters Degree is awarded following completion of a programme of one to two years duration.

Science Research Degrees

The research training opportunities available reflect the diversity of talent, experience and tradition available within UCD Science. Students can choose from a wide range of topics from basic science research through applied science in our thematic areas. Research degrees are ideal for anyone interested in pursuing further in-depth study in a specialist area relevant to their primary degree.

Research degrees, involve students carrying out their own research and academic study under the supervision of a principal academic supervisor with the support of a Masters or Doctoral Studies Panel. The precise focus of research is agreed between the supervisor and student. Research can be carried out at Masters or Doctoral level. For additional details please see:

www.ucd.ie/science/graduate_studies/types_research_degrees.html

UCD ONLINE

Graduate Studies 2014 Course Listing – UCD Online

UCD Online is a new University College Dublin offering based on 150 years of experience in delivering high quality academic teaching at both undergraduate and postgraduate levels.

Combining increasing student demand with rapidly evolving advances in technology, prospective UCD Online students can look forward to the same quality academic material and support as our campus based students. Studying online provides a flexible option for students who aim to achieve a UCD degree but are not positioned to attend campus due to location, work, family, or other constraints. There is no difference between a UCD qualification obtained on campus or online.

In 2013 UCD Online introduced five exciting new online/blended courses designed and delivered by academics across four Colleges and ten Schools within UCD. Existing online/blended education offerings that predate this initiative are also accessible via the UCD Online website which has become a portal for all UCD online courses.

Additional courses are being developed and added to UCD Online on an ongoing basis. Prospective students can find more information about studying online with UCD and apply for an online/blended course by visiting www.ucd.ie/online.

www.ucd.ie/online

Degrees Explained

Taught Degrees:

Graduate taught programmes, such as Graduate Certificates, Graduate Diplomas or taught MA or MSc programmes, the majority of the programmes will consist of taught modules, often with the addition of a large thesis or dissertation module for Master's level programmes.

Taught graduate programmes have associated levels assigned to them in accordance with the NFQ (National Framework of Qualifications). For further information please see www.nfq.ie.

Higher Diploma - Level 8 (60 Credits)

The Higher Diploma is normally awarded following completion of a programme of 1 year duration. Progress and transfer routes include transferring to programmes leading to Masters degree/Postgraduate Diploma. These are often referred to as conversion programmes as they allow the student to gain knowledge in an area not covered by their undergraduate degree.

Professional Diploma - Level 7, 8 or 9 (20 -30 Credits)

The Professional Diploma can be a Level 7, 8 or 9 Special Award. Programme Award credits can vary, please check programmes specific information.

Graduate Diploma - Level 9 (60-80 Credits)

The Graduate Diploma is normally awarded following completion of a programme of 1 year duration. Progression and transfer routes include exemptions from a programme leading to a Masters Degree or in certain instances it can be offered as a completely separate programme.

Masters - Level 9 (90-120 Credits)

The taught Masters Degree is awarded following completion of a programme of one to two years duration. Some of the progression and transfer routes include progression to programmes leading to Doctoral degrees.

Research Degrees

A research degree such as Masters by Research or PhD involves the sustained and in-depth study of a specific topic, which is then written up as a thesis for examination. Research degrees, involve students carrying out their own research and academic study under the supervision of a principal academic supervisor with the support of a Masters or Doctoral Studies Panel. The precise focus of research is agreed between the supervisor and the student. Research can be carried out at Masters or Doctoral level.

Research Masters Degree (Level 9)

Research Masters degrees provide education and training in a particular subject through original exploration and research. A Research Masters usually takes one to two years full-time or two to four years part-time to complete. The research culminates in a thesis which sets out the conclusions of the research undertaken. The assessment and award of the degree is on the basis of the thesis.

UCD Structured PhD (Level 10)

The UCD Structured PhD aims to enable UCD PhD students achieve the best possible experience of graduate research and training. Making a substantial and original contribution to knowledge, normally leading to peer-reviewed publications remains the core objective of doctoral studies. The Structured PhD includes several innovative measures designed to support you in achieving your academic and professional objectives. A PhD typically takes 3 year full-time (6 year part-time) to complete. Assessment for the award of a PhD is on the basis of a thesis which is assessed at a viva-voce exam.

For further information on the National Framework of Qualifications please see their website at: www.nfq.ie

www.ucd.ie/graduatestudies

You can choose to apply to any of UCD's extensive menu of taught graduate programmes or any of our highly rated research degree programmes, depending on your area of interest.

WHERE CAN I FIND MORE INFORMATION

4 Ways To Search: www.ucd.ie/graduatestudies

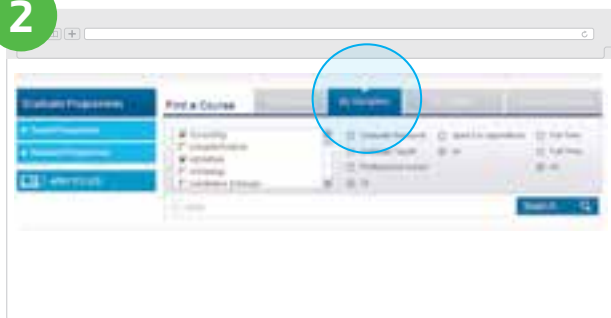

1

SEARCH BY KEYWORD

By Keyword lets you search for a programme by a particular word or phrase. Simply key in a word or phrase in the box (please do not include the award type in your search) Use the radio buttons on the right to further refine your search. Click **SEARCH**

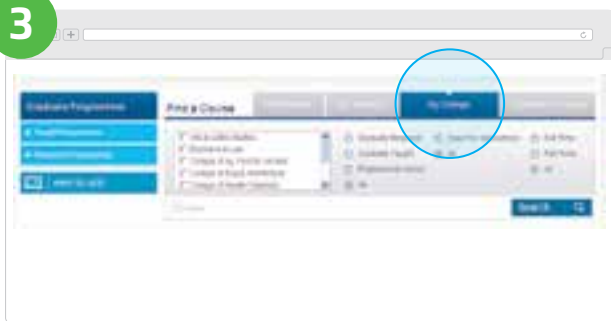

2

SEARCH BY DISCIPLINE

By Discipline lets you search for a programme by one or more disciplines. Drag the scroll bar to see the full list of options. Simply click on the discipline(s) that you would like to view results for. Use the radio buttons on the right to further refine your search. Click **SEARCH**

3

SEARCH BY COLLEGE

By College lets you search for a programme by one or more disciplines. Drag the scroll bar to see the full list of options. Simply click on the discipline(s) that you would like to view results for. Use the radio buttons on the right to further refine your search. Click **SEARCH**

4

SEARCH BY CONVERSION COURSE

By Conversion Course (courses that do not require the potential student to have taken this subject as part of their primary/undergraduate degree). Simply key in a word or phrase in the I'm interested in box (please do not include the award type in your search). Use the radio buttons on the right to further refine your search. Click **SEARCH**

STUDENT FACILITIES & SUPPORTS

UCD has a graduate student population in excess of 7,500 students who make up a significant proportion of our overall student body. We have excellent amenities to support your studies and your research, and also provide a range of services to ensure that your time with us is enjoyable and fulfilling, academically, personally and socially.

On our two campuses, and in our numerous associated research and teaching institutions, we provide world-class teaching, learning and research facilities. We have many well-resourced libraries and extensive computing facilities. We also provide excellent health, welfare and counselling services.

STUDENT FACILITIES & SUPPORTS

At UCD, we offer you many opportunities to become involved in the social side of graduate student life. There are more than 60 sports clubs at UCD and over 50 student societies. In short we are committed to making your time as a graduate student at UCD inspiring, challenging and exciting.

IT SERVICES

Studying, socialising and working on your thesis is easier at UCD since you have free wireless coverage on-campus (and in residences) so you can use your tablet or smartphone anywhere! UCD Connect ensures online services can be accessed 24/7, whether you're at home or abroad.

There are approximately 1,000 computers available in open access labs throughout the University.

range of IT services. Check out our IT Support pages on www.ucd.ie/it and the [IT Services Induction Video](#)

Top Tip! Download the free app UCD Mobile (available from the app store for iPhone and Android). It contains Blackboard Mobile Learn - great for checking course notes, a staff directory, a handy library catalogue search feature and an interactive map of Belfield campus.

UCD LIBRARY

There are also three walk-in IT Centres where you can bring your laptop and get help and advice on a

There are thousands of books and periodicals, full-text access to a vast range of electronic information services and other learning materials in both print and electronic formats available to UCD registered students. There are 3,150 reading or study places in the libraries, including special assistive technology facilities for students with disabilities.

Many services can be used online via the e-library, which also provides assistance and advice about library facilities, collections, information resources and opening hours. There is also an open access toolkit to support bibliometrics training and awareness

UCD STUDENT CENTRE AND THE UCD SPORT AND FITNESS

All students have the opportunity to join in and become part of UCD sport; those who do, find their involvement significantly enhances their UCD experience, with many benefits in terms of health, physical fitness, camaraderie and personal development.

The quality of our facilities, which are among the best in the country, reflect the popularity and significance of sporting activity at UCD.

The new UCD Student Centre facility includes a purpose built sport and fitness centre, Olympic 50M Swimming Pool, Children's Pool, Sauna, Jacuzzi, Steam Room, Gym, Dance Studio, Spinning Studio, Cinema, Drama Theatre, Debating Chamber and Medical Centre.

For further information please visit www.ucd.ie/sport

UCD STUDENT ADVISORS

Student Advisers provide support for all students during their time at university. They are located in all seven Colleges and are either attached to particular programmes or to specific groups of students. They work closely with the administrative and academic staff as well as with the Chaplains and other support staff.

They are here to help you make your time at UCD as fulfilling and enjoyable as possible. You can call to see them in relation to personal, social or practical issues. From simple requests for information to more confidential and serious matters they will give you the time and space to talk things through. Visit www.ucd.ie/advisers for further information

APPLIED LANGUAGE CENTRE

The UCD Applied Language Centre (ALC) provides a wide range of language programmes and services to current and potential UCD students such as:

- Credit bearing Foreign Language Electives to graduate students in 10 international languages with levels ranging from beginners to advanced.
- Graduate Programmes (TESOL)
- English for Academic Studies (academic year) and Pre-Sessional English for Academic

Purposes programmes, with a particular focus on those who need a certain level of competence to gain entry to a degree programme in the University.

- Tests of English proficiency are offered on a regular basis. The ALC is a recognised centre for IELTS and University of Cambridge examinations.

For further information please visit: www.ucd.ie/alc

CHILDCARE

UCD has its own well-equipped crèche that caters for children of students and staff. Qualified and experienced staff provide day care from 7.45am to 6.15pm Monday to Friday throughout the year,

for children aged three months to seven years. Students are given priority in the allocation of places. Visit www.ucd.ie/crèche for further details.

ACCOMMODATION

UCD has set aside four hundred and seventy six on-campus rooms for graduate students. UCD has campus accommodation in halls of residence and three, four, five and six bedroom self catering accommodation. These are spread across five locations.

For further information, please see www.ucd.ie/residences

If you would prefer to live off campus. UCD Residences Off-Campus Office located at Merville Residence Reception or the Student Union Accommodation office located at the Student Union Services office is available for advice.

residences@ucd.ie
www.ucdsu.ie

Check out the UCD student accommodation search which lets you search for student houses, student homes, housing, flats and lodgings in Dublin. www.ucdaccommodationpad.ie

CAMPUSES

Belfield

The main campus of UCD is situated at Belfield, a 132 hectare site 4 km south of the centre of Dublin city. This campus is an attractively landscaped complex of modern architectural buildings, accommodating most of the Colleges and Schools of the University as well as its student residences and numerous leisure and sporting facilities.

Facilities on campus include:

- Banking Facilities
- Numerous Food Outlets
- Photocopying, Printing, Stationery Services
- Shops
- Bookshops
- Bike shop
- Crèche
- Purpose Built Sport and Fitness Centre- Olympic
- 50M Swimming Pool, Children's Pool, Sauna, Jacuzzi, Steam Room, Gym, Dance Studio, Spinning Studio, Dramsoc Theatre (Seats 111) Dedicated Tournament-Grade Debating Chamber and Cinema

UCD is known for its parkland setting and mature landscaping. There are over 8km of Woodland Walks across campus.

Blackrock

The UCD Michael Smurfit Graduate Business School is located at the Blackrock campus, approximately two miles from Belfield. The picturesque Blackrock campus is located on the former Carysfort Park Estate. The campus is within walking distance of the thriving seaside town of Blackrock, one of the prime residential and shopping areas of suburban Dublin, which is linked by light rail and bus services to the city.

Lyons Estate

Other University buildings include the Lyons Estate in Co. Kildare which houses the UCD School of Agriculture, Food Science and Veterinary Medicine's research farm.

INTERNATIONAL

UCD is Ireland's largest and most international university. It is home to over 5,500 international students and delivers degrees to over 5,000 students on overseas campuses. In addition, the University places great emphasis on the internationalisation of the Irish student experience – preparing all UCD students for future employment and life that crosses borders, boundaries and cultures.

WHY STUDY IN IRELAND

- n English speaking country
- n Located on the western edge of Europe beside the UK.
- n Lonely Planet: "World's Friendliest Country"
- n Global Peace Index: "6th safest country in the world" Ernst & Young
- n IMD: "4th globally for availability of skilled labour and openness to new ideas"
- n World Bank: "One of the top ten places in the world to do business"
- n Newsweek "World's Best Countries": Ireland top 10 for Health & Education
- n IDA "Ireland forecast to be third most digitally engaged' country by 2015. Ireland is anticipated "to climb the fastest up the rankings, from 11th place in 2012 to third [in the world] in 2015"
- n Ireland is the internet and games capital of Europe
- n Most global players in the ICT sector - from Google, Facebook, eBay and PayPal to smaller specialist companies have chosen Ireland for major operations focussed on international markets
- n More than 50% of the world's leading Financial Services firms have operations in Ireland
- n Ireland is home to 9 of the 10 world-leading pharmaceutical and biotechnology companies
- n Top clean technology companies are attracted to Ireland's plan to supply 40% of all electricity from renewable sources
- n The Dublin region contains over 57% of the total number of international students studying in Ireland.

Dublin is one of Europe's oldest cities and has a long history of academic excellence. A vibrant and multi-cultural city, it was recently voted as the world's 8th best city to study in by QS. www.topuniversities.com Dublin brings together the best of traditional Ireland as well as modern Europe and is currently home to the European Headquarters for many multinational organisations. The cultivating place of James Joyce, Beckett, Shaw, Yeats, the Chieftains, U2, Riverdance and more artists and writers than you could count.

It's the capital city of the country with the youngest and finest educated population in Europe. Few capital cities combine learning, enterprise and culture in such a small area. While renowned for its pubs, cafes and nightlife, you are never far from the sea or the green rolling hills of the countryside.

www.visitdublin.com

www.ireland.com

UCD Global Lounge is a relaxed space for international and Irish students to meet and hang out during their time in UCD.

IRELAND'S GLOBAL UNIVERSITY

UCD Global Lounge is a relaxed space for international and Irish students to meet and hang out during their time in UCD. It is unique in Ireland. Students can keep up-to-date with news from home on the large screen TV, or on 12 smaller plasma TVs, with over 350 international TV channels, including Sky Sports and ESPN. The Global Lounge is a dynamic, fun and energetic place to mix and mingle with your friends between and after classes. You can play Xbox Kinect, Giant Jenga and Twister or the many other games that are available.

We hold lots of events here throughout the year, including:

Chinese New Year • Thanksgiving Dinner • Australia Day • St Patrick's Day • Iranian New Year • Spanish National Day • Oscars Party • Language Cafés • Irish Evenings • Salsa Dance Classes • Open Mic Nights • Student Society Events • Themed Movie Nights

More information can be found at: www.ucd.ie/international/ucdglobalounge/

UCD International offers a wide range of support to both international students and Irish students who wish to study abroad. The services offered by UCD International include:

- n Pre-arrival information for new international students
- n Airport welcome
- n Orientation programmes
- n Cultural and social events
- n Assistance with University procedures
- n Handbook for international students
- n International Student Adviser who assists with personal and practical issues

To support potential international students and partners, we regularly travel overseas to participate in fairs and exhibitions; institutional visits; meet our agent network and prospective students. Please visit: www.ucd.ie/international/study-at-ucd-global/meet-ucd/events-in-your-country/ for details of upcoming visits.

For further information please visit: www.ucd.ie/international

UCD CAREER DEVELOPMENT CENTRE

www.ucd.ie/careers

Graduate study at UCD can boost your career significantly! Whether in biosciences, education, business, information technology, engineering or a host of other fields, the Career Development Centre has a suite of services to help you make the most of your future.

EMPLOYER ENGAGEMENT:

CAREER FAIRS

The Career Development Centre hosts a range of career fairs throughout the year, including Business and Management, Science, Technology & Engineering, and Law fairs.

SKILLS FOR WORKING LIFE

The Career Development Centre organises a comprehensive programme to equip participants with the skills to succeed in the 21st century workplace. These are delivered by key national and international employers and reflect current professional best practice

EMPLOYER PRESENTATIONS

UCD students are highly targeted by leading national and international employers who regularly make presentations and/or engage in workshops on campus. Details can be found on the Events section of our website.

IN-PERSON SERVICES:

INDIVIDUAL CONSULTATIONS

Students can book an appointment with a Career and Skills Consultant every day to confidentially discuss their career ambitions, review an application, or plan interview strategy via CareersConnect, a portal for UCD students and graduates. <https://careersconnect.ucd.ie/>

CAREERS WORKSHOPS

The Career Development Centre runs weekly workshops on Exploring Options, Making Effective Applications, and Interview Strategy. Students can register for these via UCD CareersConnect.

ON-LINE SERVICES:

VACANCIES

The Career Development Centre posts 1,000s of opportunities annually on CareersConnect; these are targeted at current UCD students and recent graduates.

CAREER INFORMATION

The Career Development Centre hosts comprehensive information on career areas in Ireland and abroad via Career Insider and Going Global. We also link to Gradireland and UK resources, such as Prospects.

The Career Development Centre holds career fairs on campus which are attended by leading companies such as Microsoft, Google, Kerry Group, Paddy Power, Unilever and many more

Statistics from the class of 2012 show that 73% of taught Masters Degree graduates were in employment and 8% had proceeded to further study.

TAKE CONTROL OF YOUR CAREER WITH THE CAREER DEVELOPMENT CENTRE

To maximise your chances of progressing in your chosen career contact the Career Development Centre as soon as, or even prior to, your programme commences. This will allow you to take advantage of all the events and services available and achieve your career goals.

Statistics from the class of 2012 show that 73% of taught Masters Degree graduates were in employment and 8% had proceeded to further study.

The Career Development Centre is open between 9am and 5pm Monday to Friday, with late opening to 7:30pm on Wednesdays during semesters. Employer

presentations and workshops also regularly take place in the evening.

You can find us on the ground floor of the James Joyce Library Building, next to the campus bookshop. There is also a careers office located in the UCD Michael Smurfit Graduate Business School.

You can find further information on our website at: www.ucd.ie/careers Also on twitter @ucdcareers, and www.facebook.com/ucdcareers

ENTRY TO UCD'S GRADUATE PROGRAMMES

ENTRY REQUIREMENTS

The normal requirement for entry to a taught Master's Degree programme is a second class honours degree in a relevant subject. However intending applicants should check the individual requirements listed on the School website, since some degrees may require a higher standard for entry.

For applicants who do not have the required minimal entry standard, a year-long qualifying course may be available in some cases. In addition, many Master's programmes have an associated Diploma course which, if passed at an appropriate honours level, may provide part of the necessary academic qualification for entry. In this case relevant work experience may be an essential requirement.

For Master's by research degrees, course work and examinations may also be specified by the College at entry; normally these have to be satisfactorily completed in the first year of a Master's degree programme.

To be eligible to enter one of UCD's PhD programmes, a candidate must have reached a high honours standard at the examination for the primary degree. In some cases, a Master's degree may also be required. In certain cases, a candidate may be able to provide other evidence to the School in order to satisfy the entry requirements of the programme.

Please note that for all of the above, reference should be made to the relevant School or programme for more specific information on entry requirements.

LANGUAGE PROFICIENCY

Teaching in Irish Universities is normally through the medium of English, therefore all applicants are required to demonstrate a high level of competence in English language.

Applicants must provide evidence of equivalent competence in English language by achieving the minimum standard in a recognised English language test, as outlined below:

IELTS

The minimum English Language Requirements in relation to International English Language Testing System (IELTS):

An average score of 6.5 over all components and a minimum of 6.0 in each band on the Academic Version

TOEFL

The minimum English Language Requirements in relation to Test of English as a Foreign Language (TOEFL) administered by Princeton University

A minimum score of 600 in the Test of English as a Foreign Language (TOEFL), with Test of Written English at 475 +. In the computer based TOEFL, a minimum score of 250 is required. A minimum score of 90 is required in the Internet based TOEFL (iBT)

TOEIC

Test of English for International Communication (TOEIC) A minimum score of 750

University of Cambridge Advanced Certificate, Grade B (i.e. CEFR Level C1 or C2) Proficiency Certificate, Grade C (i.e. CEFR Level C1 or C2).

For all proficiency tests the results must be less than 2 years old.

Some courses require a higher level of English language competency. Please check with the relevant UCD School.

HOW TO APPLY

TAUGHT PROGRAMMES

The majority* of UCD's graduate taught programmes can be applied for online. Please visit www.ucd.ie/apply for more details about this process. UCD operates a rolling admissions policy for graduate taught courses with decisions being taken as soon as possible after receipt of completed applications. In general courses will remain open until such time as all places have been filled. However please note that some programmes may have specific closing dates. Please consult the course coordinator for more details.

* Applications for the Professional Diploma in Education and the Grad Diploma in Nursing (Public Health) need to be made through the PAC website.

RESEARCH PROGRAMMES

If you are interested in a research degree, visit www.ucd.ie/graduatestudies and click on Research Programmes. When you have identified the area(s) that are of interest to you, contact the programme coordinator listed. It is also beneficial to try and identify a potential supervisor in your area of research before making your application. You can view profiles of some of our researchers at www.ucd.ie/research

Many of UCD's graduate research programmes can be applied for online. Please visit www.ucd.ie/apply for more details about this process. All other programmes not listed on this site can be applied for by written application. Please contact the relevant School for more details.

www.ucd.ie/graduatestudies/prospectivestudents/thinking-of-applying/

FEES AND FUNDING

Students are liable to pay fees, including the Student Centre Levy to the University. In addition, students must budget for their own maintenance (including accommodation).

University fees are published in advance of the academic year, are fixed for each year and are subject to an annual increase. For specific information on the fees for your chosen course of study, and the dates by which fees have to be paid please visit the fees website. For further information please visit www.ucd.ie/fees

Student Centre Levy

All students are liable for payment of the Student Centre Levy. As a guideline, the levy was €208 for 2013/2014.

STUDENT GRANTS

A new online only grant applications system has been introduced in Ireland. All new applications will be made online to a single awarding authority, Student Universal Support Ireland (SUSI). Please visit www.studentfinance.ie for further information or to make an application.

www.ucd.ie/fees (UCD Fees & Grants Office)

www.studentfinance.ie (Student Finance Website)

www.ucd.ie/graduatestudies (Current Research Scholarships)

COST OF LIVING EXPENSES-ESTIMATE

Please use the figures below as a rough estimate of monthly/nine month student budget. These figures should be used as a guide only as it very much depends on each student's individual needs.

Cost of Living for Student living away from Home		
Expense	Monthly	Annual Cost (9 Month Academic Year)
Rent (shared-own room)	<input type="checkbox"/> 300- <input type="checkbox"/> 600	<input type="checkbox"/> 2,700- <input type="checkbox"/> 5,400
Electricity/ Gas/Bins (Public Utilities)	<input type="checkbox"/> 28	<input type="checkbox"/> 252
Food including lunches	<input type="checkbox"/> 250	<input type="checkbox"/> 2,250
Travel (Monthly Short Hop ticket)	<input type="checkbox"/> 108	<input type="checkbox"/> 972
Books and materials (including photocopying and printing)	<input type="checkbox"/> 75	<input type="checkbox"/> 675
Clothes/Medical	<input type="checkbox"/> 45	<input type="checkbox"/> 405
Mobile Phone	<input type="checkbox"/> 20	<input type="checkbox"/> 180
Social Life/ Miscellaneous	<input type="checkbox"/> 130	<input type="checkbox"/> 1,170
Total	<input type="checkbox"/> 956 - <input type="checkbox"/> 1,256	<input type="checkbox"/> 8,604 - <input type="checkbox"/> 11,304

Cost of Living for Student living at Home		
Expense	Monthly	Annual Cost (9 Month Academic Year)
Contribution to bills	<input type="checkbox"/> 34	<input type="checkbox"/> 306
Food including lunches	<input type="checkbox"/> 70	<input type="checkbox"/> 630
Travel (Monthly Short Hop ticket)	<input type="checkbox"/> 108	<input type="checkbox"/> 972
Books and materials (including photocopying and printing) ⁷⁵	<input type="checkbox"/> 49	<input type="checkbox"/> 441
Clothes/Medical	<input type="checkbox"/> 45	<input type="checkbox"/> 405
Mobile Phone	<input type="checkbox"/> 20	<input type="checkbox"/> 180
Social Life/ Miscellaneous	<input type="checkbox"/> 112	<input type="checkbox"/> 1,008
Total	<input type="checkbox"/> 438	<input type="checkbox"/> 3,942

ACADEMIC TERMS

The traditional teaching semesters (Autumn and Spring) will comprise a minimum of 15 weeks of student activity, normally 12 weeks of teaching and learning, one week of revision and two weeks of revision and assessment.

A period of up to two weeks of field work, revision or private study may be provided within a semester break.

It is important to consult the programme information for specific details as graduate taught, research activity and dissertation work may be held outside of the teaching semesters.

www.ucd.ie/students/keydates.htm

UCD RESEARCH FUNDING

Students are advised to contact the UCD School in which they are interested in studying to ask about current funding possibilities. In addition please consult the following organisations regarding other sources of funding.

Irish Research Council

The Irish Research Council manages a suite of inter-linked research schemes, funding scholars at various career stages, from postgraduate study to senior research project-based awards. For early stage researchers these include the Government of Ireland Post-Graduate Scholarships and Government of Ireland Post-Doctoral Fellowships, which fund research at pre- and post-doctoral levels, and the Research Development Initiative Scheme, which allows researchers and research teams to expand their activities into new research areas by way of stimulus project grants and knowledge transfer initiatives.

The Enterprise Partnership Scheme is an innovative initiative where the Irish Research Council links with private enterprise and eligible public bodies to award co-funded postgraduate scholarships and postdoctoral fellowships to the most promising researchers in Ireland.

The Irish Research Council's Employment-Based Postgraduate Programme is a new and exciting initiative providing postgraduate researchers with an employment-focused educational experience.

More specifically, the Programme offers researchers the opportunity to undertake a Master's or PhD degree while employed by a private company or public organisation based in the Republic of Ireland. www.research.ie

Universities Ireland

Universities Ireland promotes collaboration between universities in Northern Ireland and the Republic of Ireland. They usually offer a number of bursaries to students undertaking a recognised Master's course (taught or research) in the other jurisdiction. www.universitiesireland.ie

Environmental Protection Agency

Environmental Protection Agency (EPA) research programme for the period 2007-2013 is entitled Science, Technology, Research and Innovation for the Environment (STRIVE). The purpose of the programme is to protect and improve the natural environment by addressing key environmental management issues through the provision of world-class scientific knowledge generated through a vibrant, competitive programme of research developed supported and co-ordinated by EPA.

www.epa.ie

Teagasc

Teagasc is the leading organisation in the fields of agriculture and food research in Ireland, undertaking innovative research in:

- Animal and Grassland Research and Innovation
- Crops, Environment and Land Use
- Food
- Rural Economy and Development

Their annual research portfolio comprises some 300 research projects, carried out by 500 scientific and technical staff in their research centres throughout Ireland.

Irish Cancer Society

Irish Cancer Society research can span from the laboratory, to clinical research, to clinical trials, to physical activity research for survivors. For further information please visit: www.cancer.ie

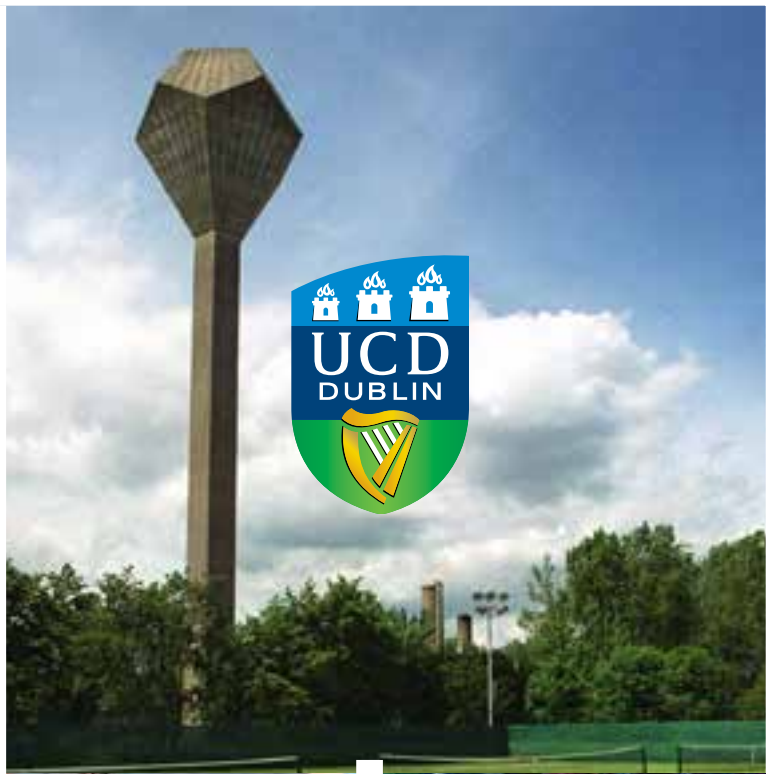

For more information on funding and details about how to apply to these schemes jointly with UCD, we would advise that you talk to your potential supervisor in UCD.

A close-up photograph of a person kayaking in white water rapids. The kayaker is wearing a white helmet and a blue and white jacket. The water is turbulent and white with foam. The kayaker's hands are visible on the black paddle. The kayak is orange and black. The background is a blurred view of the river and surrounding greenery.

GRADUATE STUDENT LIFE

At UCD, we offer many opportunities to become involved in the social side of graduate student life. There are more than 50 sports clubs at UCD and over 100 student societies. In short, we are committed to making your time as a graduate student at UCD inspiring, challenging and exciting.
