UCD Graduate Studies

UCD has developed its graduate studies programmes in line with European best practice and with over 6,800 graduate students enrolled across seven colleges, the university has demonstrated an ongoing commitment to provide all UCD graduate students with the best possible graduate experience and education.

Taught programmes are available at Certificate, Diploma and Masters levels. These courses are modularised to facilitate access, continuing professional development and life-long learning. Graduate research degrees are also available at Masters and Doctoral levels, allowing students the opportunity to play an active role in UCD's flourishing research community.

The University has excellent amenities to support graduate students and provides a range of services to ensure that student time is enjoyable and fulfilling, academically, personally and socially. Visit the UCD Graduate Studies website at www.ucd.ie/graduatestudies for access to a wealth of graduate information.

Why Graduate Studies?

There are many reasons why people choose to take a graduate degree. Graduate studies can enable you to immerse yourself in a subject you love, will help you to hone your knowledge of your chosen subject area and allow you to develop new skills and new knowledge. Therefore, it is a tremendously rewarding experience and one which will both enrich your life and enhance your career prospects.

Extraordinary Possibilities

Extraordinary possibilities

UCD School of Medicine & Medical Science has affiliations and associations with over twenty acute or specialist hospitals

Why Graduate Studies?

- ▶ I have a passion for my subject
 - ▶ I would like a graduate qualification to pursue my chosen career
 - ▶ A graduate degree will make me stand out in a competitive work environment
 - ▶ Better career prospects after undertaking graduate studies
 - ▶ Salary increase
- ▶ Innovative research conducted at the University attracts some of the world's most brilliant academics
 - ▶ UCD is the largest provider of graduate education in Ireland
 - ▶ UCD PhD students account for 24% of the Irish University PhD Sector
 - ▶ UCD is a diverse University both in academic disciplines and culture
 - ▶ UCD Michael Smurfit Graduate Business School was consistently ranked amongst the top 100 business schools in the world over the last 10 years
 - ▶ UCD is an integral part of Dublin, capital city of Ireland and gateway to Europe. The campus covers 132 hectares
 - ▶ There are currently 4000 international students enrolled, representing 115 countries

Veterinary Medicine

Doctor of Philosophy	Molecular & Cellular Biology of Inflammation	■ FT	Prof Stephen Gordon	stephen.gordon@ucd.ie	+353 (0)1 716 6181
Doctor of Philosophy	Drug Delivery	■ FT	Dr Graham Armstrong	graham.armstrong@ucd.ie	+353 (0)1 716 6017
Doctor of Philosophy	Veterinary Medicine	■ FT ▲ PT	Dr Maria Mulholland	maria.mulholland@ucd.ie	+353 (0)1 716 6102
Master of Animal Science	Veterinary Medicine	■ FT ▲ PT	Dr Maria Mulholland	maria.mulholland@ucd.ie	+353 (0)1 716 6102
Master of Science	Veterinary Medicine	■ FT ▲ PT	Dr Maria Mulholland	maria.mulholland@ucd.ie	+353 (0)1 716 6102
Master of Veterinary Medicine	Veterinary Medicine	■ FT ▲ PT	Dr Maria Mulholland	maria.mulholland@ucd.ie	+353 (0)1 716 6102
Doctor of Philosophy	Reproductive Biology	■ FT	Prof Alexander Evans	alex.evans@ucd.ie	+353 (0)1 716 7731

Triona Nicholl

i Stopped Motion-A broken rotary quern at the Irish National Heritage Park, Co. Wexford. Experimental archaeological use of reconstructed tools and structures and the recording and analysis of their weak points and failures can greatly develop our understanding of past subsistence strategies and technologies.

Triona Nicholl

Life Among Decay

Lichen growing on the decaying thatched roof of a reconstructed early medieval roundhouse at the Irish National Heritage Park, Co. Wexford. For the first time, the rates and processes of decay in these structures are being recorded, allowing us to study the lifespan, structural capabilities and limits of the settlements of early medieval Ireland.

Dr Kenneth Fahy

Liquid metal reflections

Soft X-ray light will be used by the semiconductor industry to inspect various components used in the manufacture of the next generation of silicon microchips in 2013.

Connell Vaughan

What is art?

The institutional theory of art is a reductivist theory that defines art as that which is showcased in an art gallery. Here a graffiti artist offers a different definition and a different location. In this we can see the challenge presented by graffiti to contemporary aesthetic theory.

UCD GRADUATE STUDIES

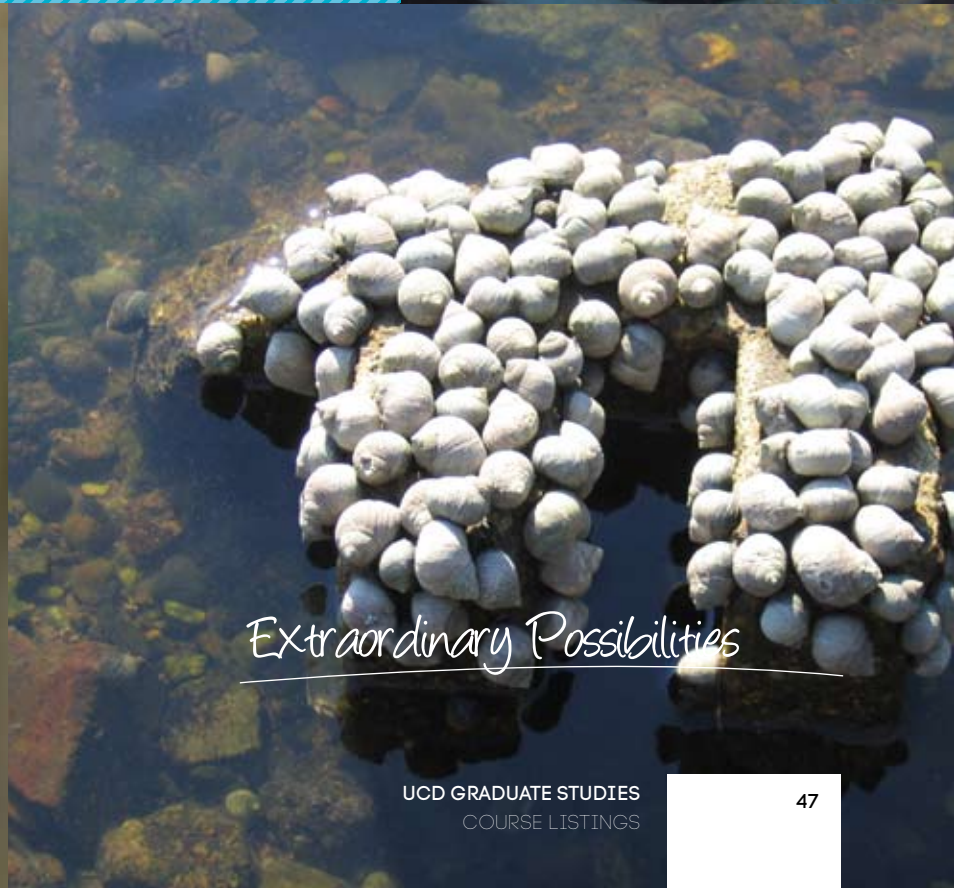

UCD HAS A GRADUATE STUDENT
POPULATION OF OVER SIX AND A HALF
THOUSAND STUDENTS

WE HAVE EXCELLENT AMENITIES TO SUPPORT YOUR STUDIES AND YOUR RESEARCH, AND ALSO PROVIDE A RANGE OF SERVICES TO ENSURE THAT YOUR TIME IS ENJOYABLE AND FULFILLING, ACADEMICALLY, PERSONALLY AND SOCIALLY

Extraordinary Possibilities

GRADUATE TAUGHT PROGRAMMES

Graduate taught programmes, such as Graduate Certificates, Graduate Diplomas or taught Masters (MA or MSc programmes) often consist of taught modules, in addition to production of a significant thesis or dissertation module for Master's level programmes.

At UCD, Graduate programmes are offered in a modularised and credit-based curriculum. The UCD credit system provides a framework which clarifies the relationship between educational activity (amount of student effort) and credit value (represented by modules). Credits for modules in the graduate domain typically range from 2.5 to 15 calculated on the basis of total student effort. The total student effort includes time spent in-class and at lectures, seminars, laboratories, tutorials or workshops and time spent on projects or assignments, as well as examinations. It also includes an estimate of independent study time.

Taught graduate programmes have associated levels assigned to them in accordance with the NFQ (National Framework of Qualifications). For further information please see www.nfq.ie.

Higher Diploma - Level 8:

The Higher Diploma is normally awarded following completion of a programme of one year duration. Progress and transfer routes include transferring to programmes leading to a Masters Degree/Postgraduate Diploma. These programmes are often referred to as conversion programmes as they allow the student to gain knowledge in an area not covered by their undergraduate degree.

Graduate Diploma - Level 9:

The Graduate Diploma is normally awarded following completion of a programme of one year duration.

Masters - Level 9:

Masters - Level 9: The taught Masters Degree is awarded following completion of a programme of one to two years duration.

For a full list of Graduate Taught Programmes, please visit www.ucd.ie/graduatestudies

GRADUATE RESEARCH PROGRAMMES

A research degree such as a Masters by Research or PhD involves the sustained and in-depth study of a specific topic, which is then normally written up as a thesis for examination. Research degrees involve students carrying out their own research and academic study, under the supervision of one or more academic supervisors. The precise focus of research is agreed between the supervisor and the student. Research can be carried out at Masters or Doctoral level.

Research Masters Degree - Level 9 (90 to 180 credits):

Research Masters Degrees provide education and training in a particular subject through original exploration and research. A Research Masters usually takes one to two years full-time or two to four years part-time to complete. The research culminates in a thesis which sets out the conclusions of the research undertaken. The assessment and award of the degree are normally based on the thesis.

UCD Structured PhD-Level 10 (270 to 360 credits):

The UCD Structured PhD aims to enable UCD PhD students to achieve the best possible experience of graduate research and training. Making a substantial and original contribution to knowledge, normally leading to peer-reviewed publications, is the core objective of doctoral studies. The Structured PhD includes several innovative measures designed to support students in achieving their academic and professional objectives.

The UCD Structured PhD is normally completed by full-time students within three to four years, and is comprised of two stages:

Stage 1

is a period when the student defines their research plan, develops their research skills and initiate original research work for their doctorate.

Stage 2

is primarily dedicated to continuing their original doctoral research but may also include some advanced education and training.

Each doctoral student at UCD has at least one supervisor, but normally a supervisory team, whose role it is to assist and guide them with their research over the course of their doctoral programme. Throughout the PhD process, each student is supported by a Doctoral Studies Panel (DSP). These panels support the supervisor-student relationship through the provision of additional advice, guidance and support, in order to ensure a positive experience for each student on the UCD Structured PhD Programme.

All doctoral students at UCD will have their own Research and Professional Development Plan (RPDP). The RPDP is an integral part of the Structured PhD programme at UCD. It has been specifically designed to help in the planning, monitoring and completion of doctoral studies. The RPDP will play a major part in directing the course of PhD research and in the student's training and development as a researcher. It will aid in the planning of research, will be a useful resource when it comes to writing up and will also help develop key skills which will be invaluable to both a student's current research and future career prospects.

UCD has also introduced a suite of structured doctoral programmes devoted to particular themes, called Thematic Programmes.

For further information on the Structured PhD please visit: <http://www.ucd.ie/graduatestudies/coursefinder/researchprogrammes/>

Tim Carnus

i Providing pollination ecosystem services, bumble bees are part of a complex web of biotic interactions that support ecosystem function in agricultural systems. Elucidating the drivers of biodiversity in agricultural landscapes is essential for a country whose principal land use is farming.

ENTRY TO UCD'S GRADUATE PROGRAMMES

ENTRY REQUIREMENTS

The normal requirement for entry to a taught Master's Degree programme is a second class honours degree in a relevant subject. However intending applicants should check the individual requirements listed on the School website, since some degrees may require a higher standard for entry.

For applicants who do not have the required minimal entry standard, a year-long qualifying course may be available in some cases. In addition, many Master's programmes have an associated Diploma course which, if passed at an appropriate honours level, may provide part of the necessary academic qualification for entry. In this case relevant work experience may be an essential requirement.

For Master's by research degrees, course work and examinations may also be specified by the College at entry; normally these have to be satisfactorily completed in the first year of a Master's degree programme.

To be eligible to enter one of UCD's PhD programmes, a candidate must have reached a high honours standard at the examination for the primary degree. In some cases, a Master's degree may also be required. In certain cases, a candidate may be able to provide other evidence to the School in order to satisfy the entry requirements of the programme.

Please note that for all of the above, reference should be made to the relevant School or programme for more specific information on entry requirements.

ENTRY TO UCD'S GRADUATE PROGRAMMES

ENGLISH LANGUAGE REQUIREMENT

Courses at UCD are given almost entirely in English. All students applying for degree courses must be able to speak, read and write English fluently in order to take part in tutorials, seminar discussions and examinations. If your mother tongue is not English, or if you have not taken your under graduate education in English, you will need to have passed an approved test before registering for a course.

The two major tests are:

TOEFL (Test of English as a Foreign Language) IELTS (International English Language Testing Service) A minimum score of 600 in TOEFL (250 computer based with test of written English at 475+) or 6.5 in IELTS (minimum 6.0 in each band) is required for all programmes.

Some courses require a higher level of English language competency. Please check with the relevant UCD School. Please note, that in all cases, the test results must be less than 2 years old.

ENTRY TO UCD'S GRADUATE PROGRAMMES

FEES AND FUNDING

Students are liable to pay fees, including the Student Centre Levy to the University. In addition, students must budget for their own maintenance (including accommodation). On acceptance to a graduate programme, students are required to make fee payments. University fees are published in advance of the academic year, are fixed for each year and are subject to an annual increase. For specific information on the fees for your chosen course of study, and the dates by which fees have to be paid please visit the fees website <http://www.ucd.ie/registry/adminservices/fees/index.html>

Local Authority Funding

Grant holders who complete a primary degree course may have the grant renewed in order to undertake a full-time taught or research graduate course. To apply for renewal, final year students should inform the UCD Grants Office in June, and write to their Local Authority when they have completed their primary degree. The grant, which covers fees and possibly a contribution towards subsistence, may be renewed in subsequent years but is limited to one graduate degree or diploma course for each student. For further information please visit www.studentfinance.ie

A mature candidate (23 years of age on 1st January of year of entry to graduate study) may be eligible for a Local Authority Grant on the basis of parental income if ordinarily resident with parents or on the basis of own income if resident away from home. Details of income limits for eligibility are available from Local Authorities (Higher Education Section). For further information on fees and grants please visit:

www.ucd.ie/fees (UCD Fees & Grants Office)

www.studentfinance.ie (Student Finance Website)

www.ucd.ie/graduatestudies (Current Research Scholarships)

ENTRY TO UCD'S GRADUATE PROGRAMMES

HOW TO APPLY

Taught Programmes

The majority* of UCD's graduate taught programmes can be applied for online. Please visit www.ucd.ie/apply for more details about this process. We offer a system of offer rounds but do advise all candidates to apply as early as possible as offers are made on an ongoing basis and programmes may be filled throughout the course of the year. These dates facilitate speedier decision making and notification to graduate taught applicants.

Offer Rounds:

- 1st Round	15th December
- 2nd Round	15th March
- 3rd Round	15th May
- 4th Round	15th July

Other Deadlines:

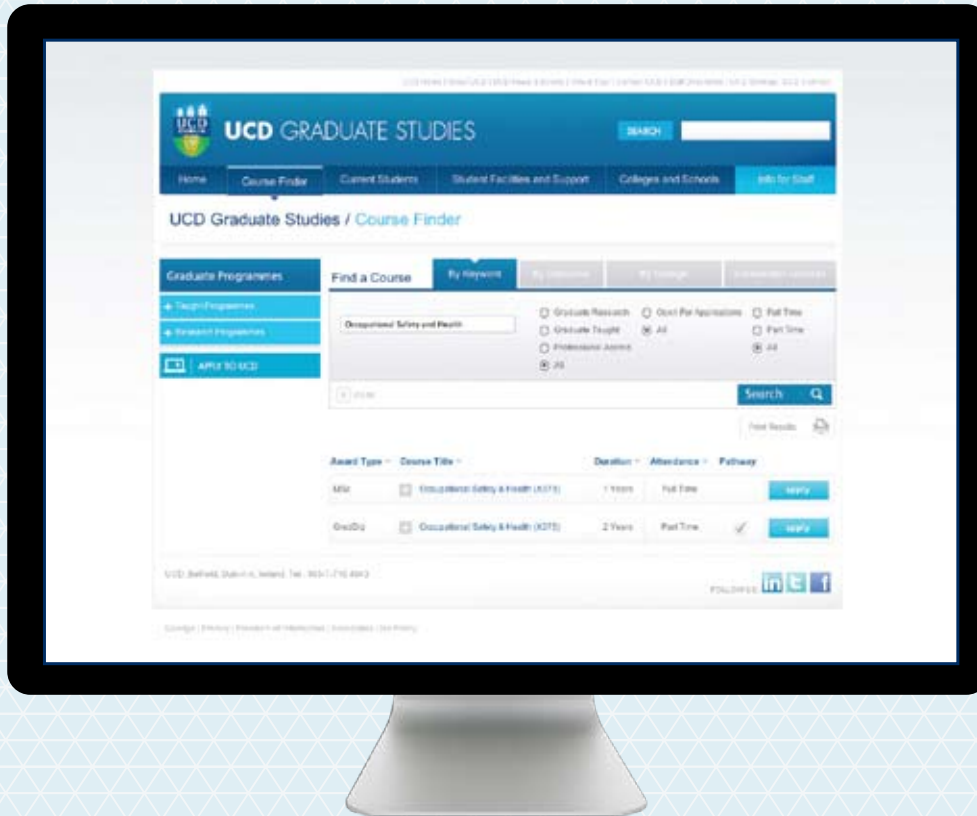

Some programmes may have other closing dates. Please refer to the specific programme information on the website for details on closing dates.

* Applications for the Professional Diploma in Education and the Grad Diploma in Nursing (Public Health) need to be made through the PAC website.

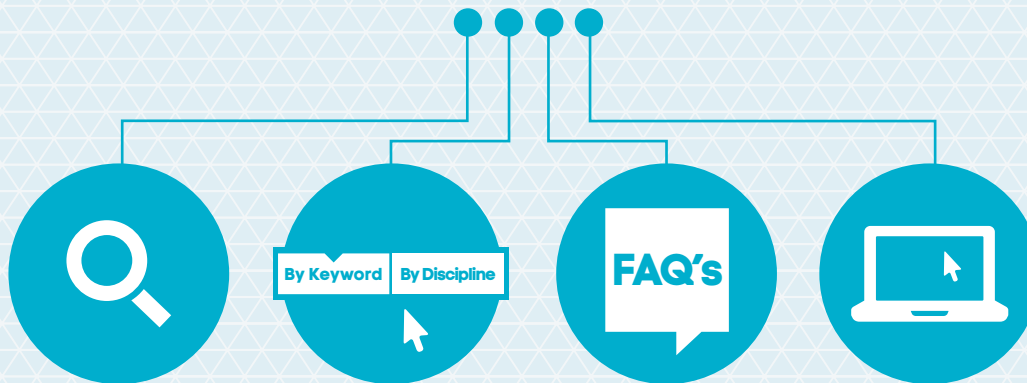

Research Programmes

If you are interested in a research degree, visit www.ucd.ie/graduatestudies and click on Research Programmes. When you have identified the area(s) that are of interest to you, contact the programme coordinator listed. It is also beneficial to try and identify a potential supervisor in your area of research before making your application. You can view profiles of some of our researchers at www.ucd.ie/research

Many of UCD's graduate research programmes can be applied for online. Please visit www.ucd.ie/apply for more details about this process. All other programmes not listed on this site can be applied for by written application. Please contact the relevant School for more details.

WHERE CAN I FIND MORE INFORMATION?

WWW.UCD.IE/GRADUATESTUDIES

Each programme listed has a website address where you can find more details about the programme. Please visit: www.ucd.ie/graduatestudies and click on course search at the top of the page.

4 Ways To Search

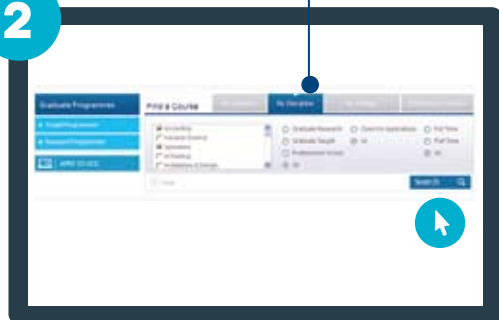

1

SEARCH BY KEYWORD

By Keyword lets you search for a programme by a particular word or phrase. Simply key in a word or phrase in the box (please do not include the award type in your search) Use the radio buttons on the right to further refine your search. Click **SEARCH**

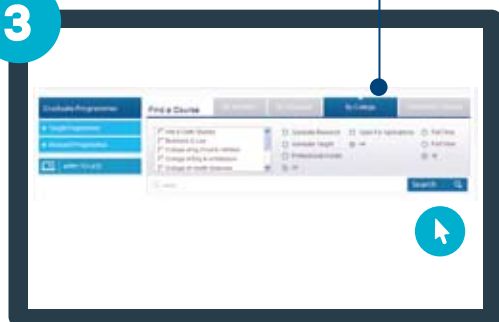

2

SEARCH BY DISCIPLINE

By Discipline lets you search for a programme by one or more disciplines. Drag the scroll bar to see the full list of options. Simply click on the discipline(s) that you would like to view results for. Use the radio buttons on the right to further refine your search. Click **SEARCH**

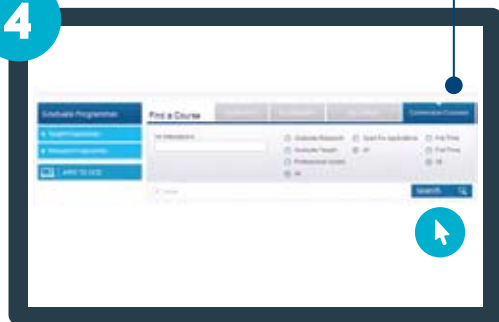

3

SEARCH BY COLLEGE

By College lets you search for a programme by one or more colleges. Drag the scroll bar to see the full list of options. Simply click on the college(s) that you would like to view results for. Use the radio buttons on the right to further refine your search. Click **SEARCH**

4

SEARCH BY CONVERSION COURSE

By Conversion Course (courses that do not require the potential student to have taken this subject as part of their primary/undergraduate degree). Simply key in a word or phrase in the I'm interested in box (please do not include the award type in your search). Use the radio buttons on the right to further refine your search. Click **SEARCH**

If you are unable to find what you are looking for please contact the UCD Graduate Studies Office on +353 (0)1 716 4043 or graduatestudies@ucd.ie
