

# Guidelines for Embedding Equality, Diversity and Inclusion in UCD

# **Purpose**

Lack of visibility is recognised as one of the obstacles to the professional development of women<sup>1</sup> and people from underrepresented groups<sup>2</sup>. Increasing their visibility in UCD ensures they can fully and equally participate in University life and can help early-career colleagues identify with role models.

Supporting the visibility and inclusion of people in UCD is crucial to attract and retain diverse candidates and colleagues, a fundamental way to help UCD achieve its strategic objective as outlined in the "Rising to the Future" **UCD Strategy 2020-2024**: 'Attract, retain and develop an excellent and diverse cohort of students, faculty and staff.'

In line with UCD's values (diversity) and our Equality, Diversity and Inclusion (EDI) Strategy 2018-2020-2025, the following set of guidelines has been developed for the UCD community to ensure people from underrepresented groups are visible in their Schools and Units and feel included, supported and valued. These guidelines will be of help to ensure EDI is embedded throughout all UCD activities, in particular for events, conferences, communications, websites and promotional materials.

## Guidelines

#### **Events & Physical Environment**

Events: (including panels, conferences and seminars)

- Ensure that there is gender balance of speakers at events by applying the 40/60 gender balance rule as per the UCD Gender Balance on Committees Policy
- Encourage members of underrepresented groups to attend and speak at events relevant to their discipline or work and support their ability to participate (striking a balance is important: ensure that the same senior women/men are not asked to sit on interview panels and are not overburdened – avoid tokenism)
- Encourage members of underrepresented groups to raise their profile by participating and speaking at events
- o Consider what barriers may prevent people from underrepresented groups to attend/speak at events
- Consider appointing members of underrepresented groups as chairs of events being held in UCD
- Ensure the following sentence is included in all event communication in UCD:

'UCD strives to be an inclusive University and values everyone's participation. If you have any dietary or accessibility requirements that may need to be facilitated kindly inform us in advance of the event'

<sup>&</sup>lt;sup>1</sup> To help support and advance women's careers in UCD, the **Gender Equality Action Plan** identified the need to 'set norms around the visibility of women in events, materials, communications and awards' to be achieved by developing a guidelines document on the topic (item 4.23 in section 4.4 'Organisation and Culture.') This action was broadened out to include all members of underrepresented groups and led to the development of this document.

<sup>&</sup>lt;sup>2</sup> The nine grounds protected under Irish legislation are gender, marital status, family status, age disability, sexual orientation, race, religion, and membership of the Traveller community. UCD also added a tenth ground of socioeconomic status.

# **Implementation**

Colleges, Schools and Units in UCD are strongly encouraged to create an implementation plan to bring the guidelines to life in their respective areas. The EDI Unit in HR and the Vice-Principals for EDI in your College can provide support with this process.

Schools who are applying for an Athena SWAN award can integrate the implementation of these guidelines into their Action Plan. Other Schools and Units should identify key areas for action and prioritise accordingly.
