

Policy Brief

Title

The title should be less technical and more accessible to policymakers and other non-technical audiences

Author(s)

Key Insights

Highlight the first sentence of each point.
This ensures it stands out.

Keep the points concise. This section is a summary of your main argument/findings.

It may be helpful to write this section last.

[Word count: Approx. 100-200 words]

Why is this issue important?

Please provide background to:

- The problem that is being addressed
- The wider context
- Brief description of relevant research, provide a link to your research paper(s)
- The potential causes, and
- Potential solutions

[Word count: Approx. 250 – 300 words]

Policy Recommendations

Please focus on any specific, practical steps that should be taken in order to implement the solutions outlined in the section above.

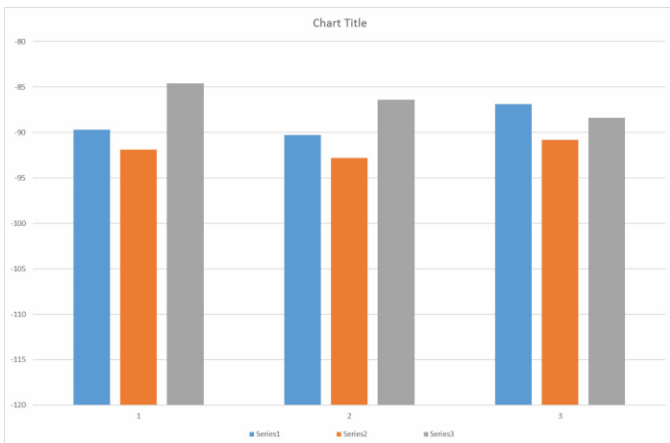

These could be a number of solutions, discussed briefly, or a few solutions provided in more detail.

If possible, please provide information about consequences (both positive and negative) of these policy solutions, including possible costs.

Visualisations such as charts, figures and/or pictures can be included here.

[Word count: Approx. 250 – 350 words]
