# CÉAD MÍLE FÁILTE GO HÉIREANN A HUNDRED THOUSAND WELCOMES TO IRELAND

## Why choose Ireland?

*"Ireland has it all. From the haunting beauty of the pure, unspoiled landscapes and the drama of the coastline, to the urban buzz of the country's dynamic cities mixed with the magic of thousands of years worth of culture and history, Ireland is a country that never fails to surprise (Tourism Ireland)."*

- Ireland, an English speaking country, is an island on the west of Great Britain and Europe and it is the 8th safest country in the world according to the Global Peace Index. The island is divided into two parts – the Republic of Ireland and Northern Ireland, part of the UK. The population is approximately 4.8 million people. Ireland is the only English-speaking member country of the European Union (aside from Malta) and is a Eurozone member country.
- Almost **one thousand overseas companies** use Ireland as their European base including Google, Intel, Yahoo, Adobe, Microsoft, Hewlett Packard, Apple and Amazon.
- Ireland is well known for its stunning scenery and varying landscapes – from rugged coastlines, to inland lakes and rivers, to impressive mountains and flat pasture farmland.
- Ireland has a well-established reputation for education - **ranked in the 10 best educated countries in the world** (24/7 Wall St/OECD Education at a Glance report)

## Career Opportunities in Ireland

Over 1,000 overseas companies have chosen Ireland as their strategic location in Europe. Ireland is the internet and games capital of Europe and is known as the 'silicon valley of Europe.' Most global players in the ICT sector - from Google, Facebook, eBay, Twitter, Intel, Dell, Microsoft, Yahoo and PayPal to smaller specialist companies - have chosen Ireland for major operations focused on international markets.

The Life Science sector in Ireland (including medical devices and pharmaceutical companies) also includes a large majority of the top global players including Pfizer, GlaxoSmithKline, Johnson & Johnson and Genzyme. Ireland is also positioning itself to become a world leader in the Internet of Things, Big Data, ICT Skills, Energy Efficiency, Health Innovation and Cloud Computing.

# WHAT PARENTS SAY

“

Seeing the diversity that UCD holds, I knew it would provide the perfect chance for my daughter to extend her experience and gain a sense of a global community, and it would also be the ideal opportunity to expand her global awareness. More so however, I felt comfortable having my daughter travel abroad to study in Dublin, more especially at UCD, as I was aware that my daughter would be in safe hands.

*Farah Alzarooni  
(United Arab Emirates)  
Mother of Noura, BA Classics, English & History*

”

“

I must rate UCD as the best institution in Ireland for pursuing higher studies. I chose UCD for my two children Varun and Varsha because UCD has everything which a premier educational institution can provide for all round development of a student - a great campus, infrastructure both academic and sports, congenial atmosphere and very dedicated faculty. I will definitely recommend UCD to any parent who wants their children to pursue their higher studies.

*PK Raghav  
(Delhi, India)  
Father of Varun, who studied Mechanical Engineering (now working as a Global Engineer with an Irish-based company, Transition Optics) and Varsha, who studied an MSc Business - Innovation Through ICT in the UCD Michael Smurfit School of Business (working as Cloud Support Associate in Amazon Web Services in Dublin)*

”

“

When your children arrive, there's a network set up to welcome them. When they arrive, they're greeted, they're met, and they get into their accommodation. UCD really took our anxiety away from leaving them.

“

My son, Pranav Kashyap, got admission in five colleges in the UK for his undergraduate course. Sending him abroad at the age of 17 was a difficult decision. I chose UCD as they came down to Chennai to meet us. The conversation helped me to trust UCD and we signed up. From that moment for the next five years, Pranav had a glorious time at UCD. The Faculties, the administration, the campus accommodation gave their best to ensure that he was happy, healthy and successful. Whenever I called up there was a response from UCD and sitting here, I could feel that UCD's core focus is to provide a positive experience for their students and all departments worked in tandem to achieve that objective. I still remember my conversation in 2013 when I told Una "Pranav must perform well". She said "first happiness and performance will follow". The same happened, prophetic she was! Thanks UCD for being there throughout my son's journey at university.

*Narasimhan  
(Chennai, India)  
Father of Pranav who studied Computer Science and MSc Business Analytics in the UCD Michael Smurfit School of Business (now working as a Consulting Analyst in Deloitte Dublin)*

## Ireland is Safe

Ranked 8th out of 163 countries in the Global Positive Peace Index 2020

## We're young

Ireland has the youngest population in Europe with a third of the population under 25 years old and almost half the population under the age of 34.

## We have diverse... weather

In Ireland, a daily hot (or cold, or rainy) topic for discussion is the weather! You might experience four seasons in one day - so be sure to pack your sunscreen, umbrella, rain jacket, sweater and sunglasses when going to class!

## Easy to navigate - and close to European capitals

As a small country, Ireland's beautiful landscapes and vibrant cities are easily accessible. Dublin is just a two-hour drive from Galway in the west and Cork in the south, meaning that the entire country can be explored by students with ease while they are based in Dublin. An island located off the western edge of Europe, next to the United Kingdom, Ireland is within easy reach of all major European capitals, so you can enjoy European adventures during your time with us too!

## You've seen us on screen

Ireland is famous for its beautiful countryside, and is featured in many films and TV shows. In Kerry you can see Sceilig Mhichil (Skellig Michael), AKA planet Ahch-To in 'Star Wars'. In Clare you can explore the incredible Cliffs of Moher and see the location of the Horcrux Cave from 'Harry Potter', and in Down you can travel the Kingsroad from 'Game of Thrones'.

## We're proud of our culture and history

Ireland's incredible culture and history is celebrated countrywide. With two UNESCO World Heritage sites; the Neolithic chambers of Brú na Bóinne, and the previously mentioned Skellig Michael, cathedrals, castles, museums, theatres and live music, Ireland's past and present can be explored on every corner.

## WHY DUBLIN?

**Dublin city is Ireland's bustling, cosmopolitan capital and is just 5 kilometres from the UCD campus. - Voted one of the QS Best Student Cities in the World
- UNESCO City of Literature
