## Welcome from the President

Making the right decision about your postgraduate study is important and I hope that, as you learn more about UCD, you will see how you can build your future at this great university.

UCD is a comprehensive research-intensive university that seeks to make a real positive difference through our research and education. We break boundaries in education and research, supporting your own ambition to succeed and develop over the course of your educational journey. We pride ourselves on providing a holistic educational experience that embraces diversity, fosters research skills and cultivates critical thinking.

Our educational environment is designed to stimulate you with modern, flexible teaching and learning practices, utilising the most up-to-date technology. Our world-leading lecturers share their research and scholarship so that you are engaging with the most up-to-date thinking and knowledge. Recognising the pace of change and the level of challenge facing the world in which we live, we update our curriculum content and structure regularly so that you will graduate with the skills you need to make a significant and lasting contribution.

We are one of Europe's leading research-intensive universities and Ireland's leader in graduate studies with almost 12,000 graduate students, and you will take with you an outstanding qualification when you graduate from UCD. We prioritise your career development and work hard to ensure that you have every opportunity to thrive

in your chosen career. Our student population of over 39,500 includes 11,500 international students from 152 countries and ensures that you will be part of a diverse and cosmopolitan campus.

We pride ourselves on being a university for all, ensuring that everyone feels welcome, belongs and is valued, where endless possibilities await. We recognise and value the breadth of talent, experience and the contribution that you will bring, and strive to create an inclusive educational experience for everyone, allowing you to fulfil your own potential.

Your time at university is not just about lectures and study – there is much more to life on our vibrant campus. We have excellent sports facilities and continue to develop those facilities, giving you opportunities to thrive outside your chosen field of study. Our range of societies ensures that, whatever your passion is outside academia, you will find like-minded friends to spend time with. Life on our 24-hour campus is vibrant – you can spend time with your peers, learning and picking up those life skills gained through experience and interaction.

I invite you to explore the vibrant community and boundless opportunities here at UCD.

PROFESSOR ORLA FEELY  
UCD PRESIDENT

## KEY FACTS

**170 years of tradition**

**“I highly recommend returning to postgraduate study if you want to progress to the next level in your chosen field. I would also advise prospective students to talk to their employers, as they can be open to supporting those seeking to study on a programme that would be of benefit to both the employee’s career and the company in general.”**

Gearoid Devitt  
MSc Sport Management

UCD is globally recognised for its excellence in teaching and learning. UCD is ranked within the top 1% of higher education institutions worldwide and offers the best internationally accredited curriculum in Ireland with 4 subjects in the top 50 and 13 in the top 100 (source: Ranking Web of Universities 2025 and QS Subject Rankings 2025).

UCD is renowned for exemplary lecturers and professors. Taught and motivated by these academics, our students have gone on to achieve great things. Presidents, Taoisigh, CEOs, Olympians, Oscar winners, international athletes, social justice champions, educators, innovators and entrepreneurs have all been taught by the inspirational academics here at UCD.

The approaches to teaching at UCD are as distinctive and varied as the scholars who teach the subject matter. What unifies all of our expert teachers is the passion that they have for their field of expertise.

## Advancing Research & Innovation

UCD is a community of world class academics making fundamental discoveries with real, far-reaching impact for people and our planet.

At UCD, our research makes a difference. We deliver research and innovation at scale and in areas of national and global significance by prioritising excellence and impact, investing in our people and providing a culture and environment in which they are supported. ## Spotlight on Research

Through our education, research, innovation and engagement, we seek to make a real difference to the world and to the lives of our students.

### IRELAND'S FIRST SATELLITE

UCD students, faculty and staff designed and built Ireland's first satellite, launched in December 2023. UCD brought experts and learners together from across disciplines to pursue a big vision, while our partnership with

industry is now giving rise to a new space sector in Ireland. UCD also brought poetry to the stars: school children worked with a UCD professor of creative writing to write *All Ways Home*, the poem now inscribed on the orbiting satellite.

### ENVIRONMENTAL RESEARCH

The **UCD Rosemount Environmental Research Station** on the Belfield campus is home to facilities capable of simulating any global climatic and atmospheric condition: past, present, or future. By analysing the past, this research is being used to predict the impact of climate change on agriculture.

### EXPERIMENTAL ARCHAEOLOGY & MATERIAL CULTURE

UCD's **Centre for Experimental Archaeology and Material Culture**, established in 2012, is one of the only specifically designed and dedicated, on campus university facilities in the world for experimental archaeology and material culture studies. It supports research projects, innovative teaching, and public outreach activities.

### SUSTAINABLE FOOD

UCD has developed a comprehensive knowledge base that can inform the food sector from farm-to-fork. Just recently, a new **€35m food systems research centre** co-led by UCD aiming to help the industry's transition to climate neutrality has officially been launched at Belfield.

### LYONS FARM

The 250 hectare **UCD Lyons Farm** is unique amongst universities in Ireland: providing students and academics with access to large animal and crop enterprises for the delivery of teaching and research programmes; with on-farm facilities that support over €20 million in active research grants.

SUSTAINABILITY

UCD is **#1 in Ireland for Sustainability** according to the latest QS Sustainability Rankings (2025) and is one of Ireland’s Sustainability Goals Champions for 2024-25. Our leading experts are informing policy, creating new technologies and participating in major advisory bodies to help meet Sustainable Development Goals and directly effect change across the world.

DIGITAL HEALTH TECHNOLOGIES

Digital health technologies can unlock more equitable and personalised healthcare and strengthen health systems. UCD is home to the world’s leaders in predictive modelling, precision medicine and bio-clinical informatics, generating real impact and breakthroughs in the clinical setting to make a real difference in patients’ lives today.

AI & TECHNOLOGY RESEARCH

Combining decades of pioneering work in **machine learning, data science and digital technologies** with a broad discipline base, UCD drives advances in AI and technology research and learning in important areas. Our learning programmes in digital policy consider these advances in the context of our wellbeing as a society, supporting our students to consider the ethical, political, legal and societal implications.

AFRICA ENGAGEMENT STRATEGY

In May 2023, UCD launched its **Africa Engagement Strategy 2023-2028**, committing the University to deepening its research, scholarship and innovation engagement with the continent. This ambition will be achieved through the development of meaningful and equitable relationships with African scholars and institutions, as well as leveraging the broad range of existing partnerships between UCD and Africa.

TEACHING HOSPITAL NETWORK

UCD students in the health sciences disciplines benefit from practice placements at Ireland’s **largest teaching hospital network** including acute, paediatric, maternity and specialist hospitals, and the HSE Dublin South East Region.

JOURNALISM & INTERNATIONAL AFFAIRS

Launched in 2021, The **UCD CNN Academy MA** in Journalism and International Affairs is a world-first graduate programme. It combines world leading journalism training with academic expertise in international affairs from the UCD Clinton Institute.

PUBLIC HEALTH

UCD Master of Public Health (1992) alumnus Dr Mike Ryan, Executive Director of the WHO Health Emergencies Programme, was awarded a **UCD Alumni Award** in 2021 in recognition of his decades of contribution in health risk, including his leadership during the COVID-19 Pandemic.

MODERN CRIME PREVENTION

UCD’s online law enforcement Master’s in Forensic Computing and Cybercrime Investigation has trained senior officers in Interpol, Europol, NATO and the United Nations.

# Ireland's Global University

UCD effortlessly combines its distinctively Irish outlook with its powerful global impact and is the most connected and networked university with government, industry and society in Ireland.

## GLOBAL REPUTATION

UCD is recognised worldwide with international accreditations for UCD degrees from the world's leading professional organisations in Veterinary Medicine, Architecture, Landscape Architecture, Regional and Urban Planning, and Engineering.

The UCD Michael Smurfit Graduate School of Business is one of a small number of business schools worldwide to hold triple international accreditation (US-AACSB, European-EQUIS and UK-AMBA). It is the only Irish business school consistently featured in global rankings over the last ten years.

## KEY FACTS

**UCD is a research collaborator with all the top 10 universities in the world**

## KEY FACTS

**UCD has a global network of 323,000 alumni across 184 countries**

## GLOBAL COLLABORATION

UCD is an active member of many international research and education networks such as Una Europa, Universitas 21 (U21), UNICA. UCD is number one in Ireland for the highest volume of research publications per year.

## GLOBAL CONNECTIONS

Currently, UCD has 323,000 global alumni spread throughout 184 countries. This global alumni network provides a powerful connection between UCD and today's globalised society. UCD also has a presence around the world through overseas programmes: UCD provides and accredits degree programmes in cooperation with partner institutions in China (such as Peking, Renmin and Fudan) as well as in Singapore, Malaysia and Sri Lanka. To further expand this global engagement, UCD has developed a network of Global Centres in North America, UAE, India, China and Malaysia; each of which provides a hub of research and education connections for students, faculty, alumni and partners.

## Unlock Your Career Potential

UCD is ranked in the top 100 worldwide for employability outcomes for graduating students.

(Source: QS World University Rankings 2026).

To prepare you for your future career, the UCD Careers Network ([ucd.ie/careers](https://ucd.ie/careers)) provides a wide range of supports at every stage of your career development journey.

## Funding your Postgraduate Studies

In order to cover both the cost of your fees and living expenses while you are studying, you will need to budget appropriately.

**Make sure to plan in advance how you are going to cover your financial needs so that you can concentrate on your studies once you have registered.**

As well as exploring the funding options listed below, don't forget that tax relief is also available on postgraduate tuition fees, up to €7,000 per person per course. You can find out more on Citizens Information: [Read more](#)

### UCD SCHOLARSHIPS

UCD offers a range of scholarships across the various schools and colleges. You will find a listing of annually awarded scholarships, prizes and awards for Graduate students under each College at: [Read more](#)

Details of graduate scholarships are also published on the Graduate Studies website: [Read more](#)

Scholarships may also be listed on the School website. Details of graduate business scholarships can be found on the Michael Smurfit Graduate Business School website: [Read more](#)

### IRISH RESEARCH COUNCIL

The Irish Research Council manages a range of interlinked programmes funding researchers across all career stages and disciplines. Please monitor the council's website as funding opportunities typically open at different times during the year and close at various dates. [Read more](#)

### SUSI GRANTS

State funding is available for postgraduate courses through the Student Universal Support Ireland (SUSI) organisation. Even if you have received SUSI funding before, you will need to apply again for their postgraduate support. Applications for the upcoming academic year open in April. To check your eligibility visit: [www.susi.ie/eligibility-criteria](http://www.susi.ie/eligibility-criteria)

## NFQ & Credits

### National Framework of Qualifications (NFQ)

The NFQ is a ten-level system (1–10) giving an academic or vocational value to qualifications obtained in Ireland. UCD Graduate Courses have associated levels assigned to them in accordance with this framework.

### UCD offer a modularised and credit-based curriculum:

Each module has a credit value typically ranging from 2.5 to 15 credits. This is calculated based on the total student effort. The total student effort includes time spent in-class (at lectures, seminars, laboratories, tutorials or workshops) and time spent on projects or assignments, as well as examinations. It also includes an estimate of independent study time.

One credit represents 20-25 hours of total student effort; therefore, a standard five credit module represents 100-125 hours of student effort.

### UCD Micro-credentials

UCD also offer Micro-credentials, which are a selection of accredited courses of 2.5 to 10 credits that provide learners with a globally recognised accreditation in specific subjects. In some cases, this credit can be stacked towards a UCD award, for example, a UCD Professional Diploma or Master's. To find out more about UCD Micro-credentials, go to page 85 or visit [www.ucd.ie/microcredentials/](http://www.ucd.ie/microcredentials/)

# Graduate Taught Programmes

Graduate taught courses are usually taken by students who hold an undergraduate degree. The majority of the course will involve taking taught modules. In order to graduate with a master’s degree, you will typically need to complete a dissertation.

**ENTRY REQUIREMENTS**  
The normal entry requirement is a recognised bachelor’s degree at second class honours, grade one (2:1), or equivalent. Applicants should check the programme specific requirements as some degrees may require a higher standard for entry. For applicants who do not have the required minimum academic entry standard, a year-long qualifying course, such as a Higher or Graduate Diploma, may be available in some cases.

Award	NFQ Level	Credits	Duration	Transfer & Progression
<b>Graduate Taught</b>				
Graduate Certificate	9	30-40	9-12 Months	Graduate Diploma or it can be offered as a completely separate course.
Professional Certificate	9	5-15	4-12 Months	Standalone award within a specialist subject usually delivered on a part-time basis.
Higher Diploma	8	60	9-12 Months	Master's Degree or Graduate Diploma. Also known as a conversion course as they allow the student to gain knowledge in an area not covered by their undergraduate degree.
University Certificate	8	20-40	6-12 Months	Standalone award within a specialist subject usually delivered on a part-time basis.
Graduate Diploma	9	60-80	12 Months Full Time / 18-24 Months Part Time	Master's Degree or it can be offered as a completely separate course.
Professional Diploma	9	20-30	9-12 Months	Standalone award within a specialist subject usually delivered on a part-time basis.
Master's Degree	9	90-120	9-12 Months	Doctoral Degree (subject to school admission policy).

# Graduate Research Programmes

A research degree i.e. a research master’s degree, MD degree, PhD degree or professional doctorate, involves the sustained and in-depth study of a specific topic that is then written up as a thesis for examination. Research degrees require students to carry out their own research and academic study under the guidance of an academic supervisor(s), supported by a Research Studies Panel.

**ENTRY REQUIREMENTS**  
To be eligible to enter a research master’s degree or PhD programme, an applicant must have obtained a minimum of a recognised bachelor’s degree at second class honours, grade one (2:1) or equivalent in a relevant bachelor’s degree. For a significant number of PhD programmes, a master’s degree may also be required. Specific information on entry requirements can be found on the relevant UCD School website.

Award	NFQ Level	Credits	Duration	Transfer & Progression
<b>Graduate Research</b>				
Research Master's	9	No requirements for taught modules	1-2 Years Full-Time / 2-4 Years Part-Time	The research master's provides education and training in a particular subject through original exploration and research.
MD	9	Max 20 credits of taught modules	2 Years Full Time / 4 Years Part-Time	The MD degree provides advanced education and training in medical research for medical graduates where they make a significant contribution to knowledge.
UCD PhD	10	30 credits of taught modules	3-4 Years Full Time / 5-6 Years Part-Time	The UCD PhD includes several innovative measures designed to support the student in making a substantial and original contribution to knowledge, normally leading to peer reviewed publications. The final thesis is assessed at a viva-voce examination.
Professional Doctorate	10	20-90 credits of taught modules	3-4 Years Full Time / 4-6 Years Part-Time depending on the specific programme	The professional doctorate is awarded where the outcome of the research makes a significant contribution to knowledge and where the student demonstrates the capacity to apply knowledge within a professional practice setting. The final thesis is assessed at a viva-voce examination.

# How To Apply

## Graduate Taught Programmes

### CHOOSE YOUR PROGRAMME

Using the course finder [www.ucd.ie/graduateadmissions](http://www.ucd.ie/graduateadmissions), check the specific course entry requirements that can be found on the individual course listing pages.

### CHECK THE CLOSING DATE

Most courses open for applications on 1st October and generally remain open for applications until all places are filled. As some courses have specific closing dates, check with the course co-ordinator.

### APPLY ONLINE

Fill out the application form online at [Read more](#)

### PAY THE APPLICATION FEE

An application fee is required for most application types (€60). This is payable during the application process using credit or debit card.

### PREPARE SUPPORTING DOCUMENTATION

When you submit your online application, you will receive a confirmation email and a list of required documents will be emailed to you. The documentation required varies depending on the course and may include academic references, a personal statement and transcripts. Use the upload facility, which is available once your application has been submitted.

Documents may also be sent to:  
Online Applications, Tierney Building,

### ASSESSMENT OF YOUR APPLICATION

Your application will be assessed on the basis of the information on your application form and the supporting documentation that you provide. See page 32 for more information.

#### RECOGNITION OF PRIOR LEARNING

Credit may be awarded within a course for certificated or experiential prior learning achieved outside of that course. This is subject to Board approval. Please see Recognition of Prior Learning Policy Document ([Read more](#)).

#### ENGLISH LANGUAGE REQUIREMENT

Graduate Taught and Graduate Research programmes in UCD are taught in English. Applicants must meet the minimum University English language proficiency requirements ([Read more](#)). In the case of IELTS Academic Version, a minimum score of 6.5 is required with not less than 6.0 in any strand. Please note, some courses may require a higher standard for entry.

# How To Apply

## Graduate Research Programmes

### CONTACT POTENTIAL SUPERVISORS

Identify one or two potential supervisors and contact them by email. Academic staff regularly receive enquiries from prospective students, so an email 'out of the blue' is completely normal. Always customise your email to the specific academic member of staff - you should review and reference their research profiles and recent publications. Include a statement of the type of research you are looking to undertake, what your previous studies have included and why you are approaching the specific individual. If you have a research question or research proposal already prepared, you can include this along with a CV if appropriate.

### FUNDING YOUR RESEARCH

Graduate research students at UCD are liable to pay fees, including the Student Centre Levy to the University. Students must budget for their own maintenance and accommodation. Prospective students are advised to carry out their own research and investigation regarding the availability of funding. Students are also advised to contact the relevant UCD School to ask about current funding possibilities.

### MAKE AN APPLICATION

Once you have the agreement of an academic member of staff to support your application, you will be asked by the School to either apply via the UCD online applications system ([Read more](#)) or directly to the School.

### PAY THE APPLICATION FEE

An application fee is required for most online applications (€60). This is payable during the application process using credit or debit card.

### PREPARE SUPPORTING DOCUMENTATION

Your school will advise you if further information or supporting documentation is required (e.g. academic references, a personal statement and transcripts).

### ASSESSMENT OF YOUR APPLICATION

Your application will be reviewed by the School Graduate Admissions Committee on the basis of your academic qualifications, the alignment of the proposed research with the school's academic strategy, your personal statement and, where relevant, your English language proficiency. Only when you have been approved can you register to the research programme. For this reason, we recommend you apply at least two months prior to your expected start date.

# What Happens after I Apply?

Your application will be assessed based on the information on your application form and supporting documentation

## APPLICATION REVIEW PROCESS

Your application will be assessed based on the information on your application form and the supporting documentation that you provide. Some Programmes/Schools have specific application requirements, and you may be required to attend for interview. It is important to include all required documents otherwise your application will be considered incomplete.

## APPLICATION STATUS

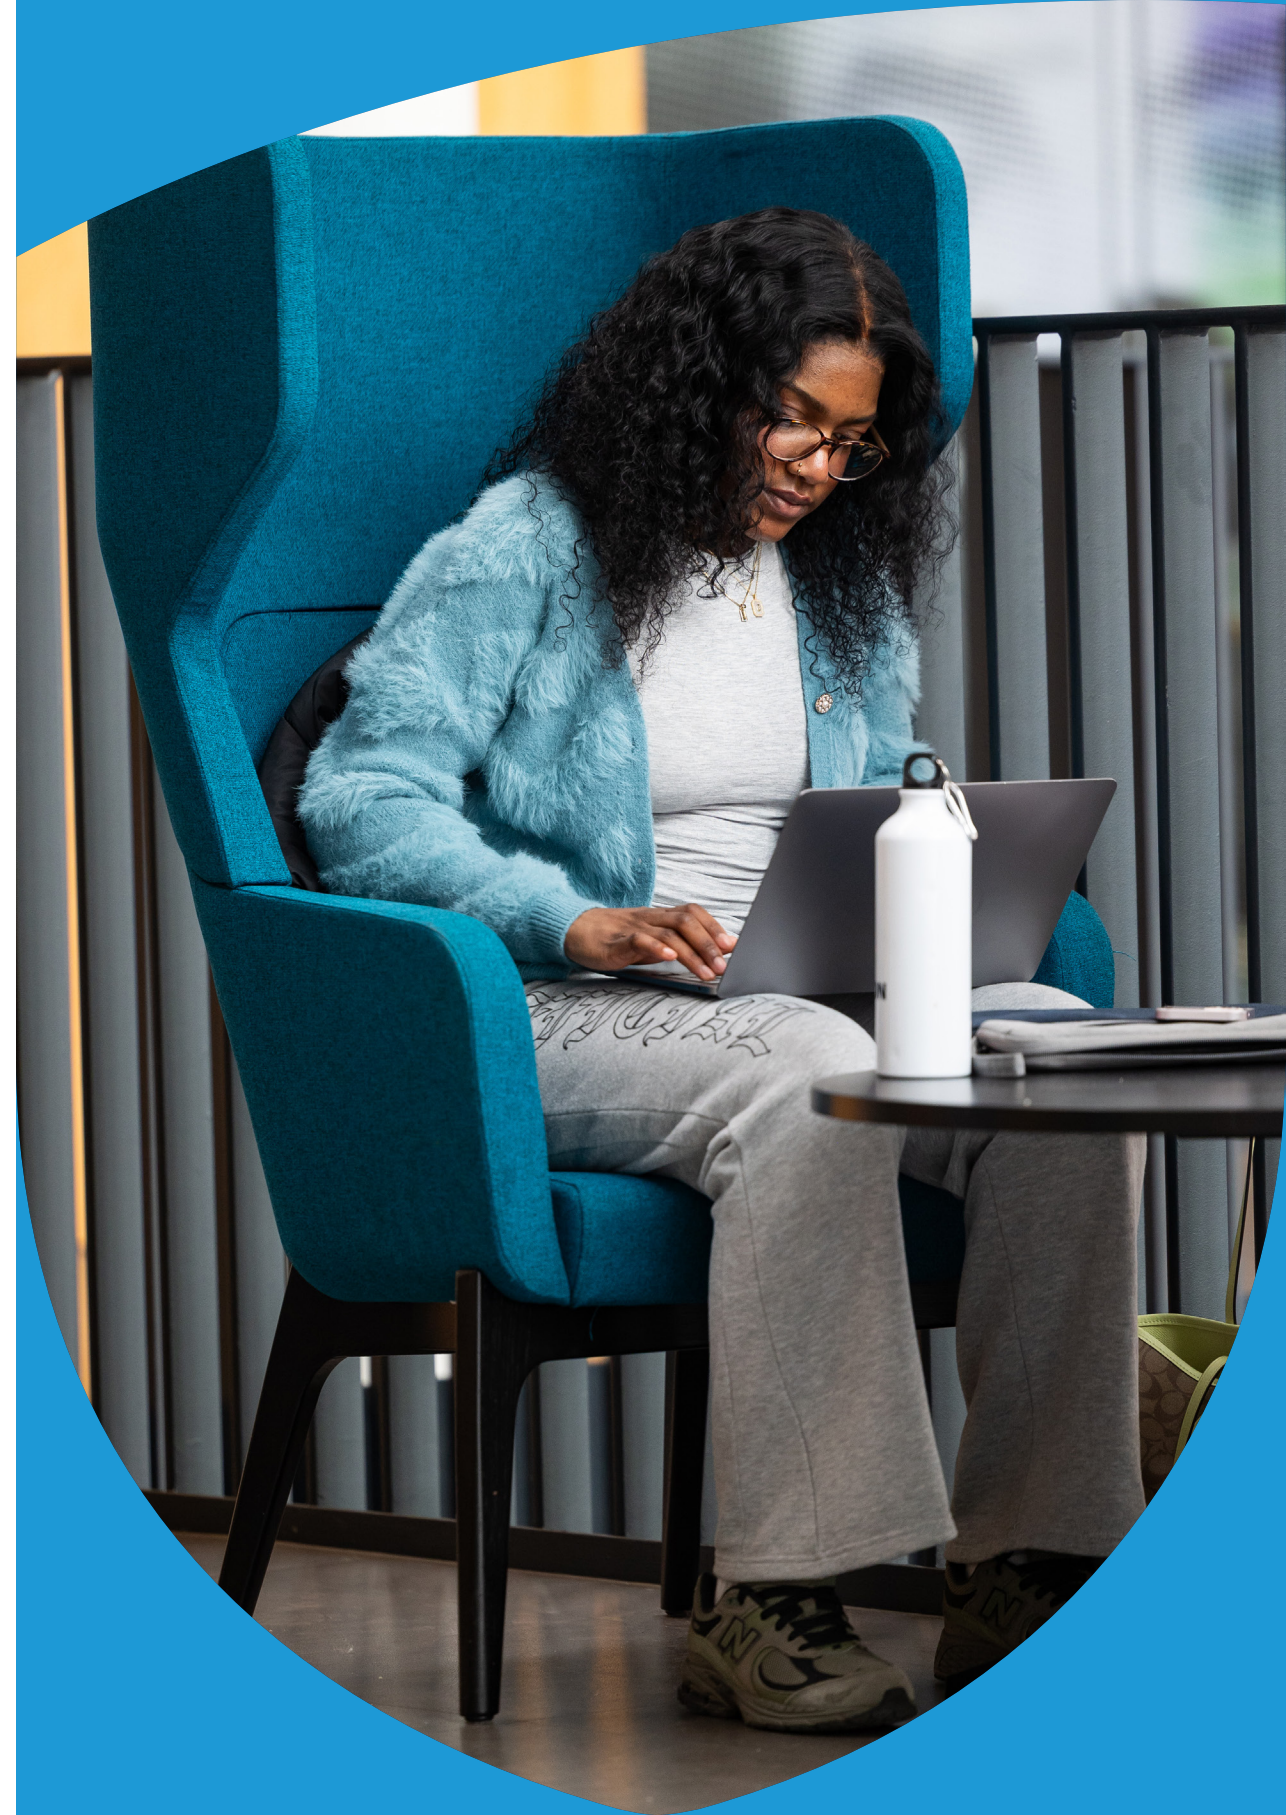

You can check the progress of an online application by logging into your application account. You will receive an automated email alerting you of a change in the status of your application when a decision has been made.

## DECISION PROCESS

UCD operates a rolling admissions policy for Graduate Taught Courses, with decisions being taken as soon as possible after receipt of completed applications. In general, courses will remain open until all places are filled. However, some programmes may have specific closing dates. Please consult the course coordinator for more details. For Graduate Research decisions, you will be contacted directly by the School.

## ACCEPTING A PLACE

Ensure your place on the course by accepting your offer. If you are accepting online, you may be asked to submit an enrolment deposit, normally €500. This deposit is applied towards your tuition fees.

## UCD College of Arts & Humanities

Welcome to the UCD College of Arts and Humanities, a distinguished centre of excellence for Arts and Humanities graduate education in Ireland. We are ranked #41 for English Literature & Language and in the top 100 for History and Performing Arts and #92 for Arts and Humanities (QS World Rankings 2025).

We invite you to discover our portfolio of graduate courses across our seven academic Schools and the Clinton Institute for American Studies. We are home to 2500 students and more than 200 world-class teachers and scholars and an extensive range of unique archival resources and research centres and the UCD Humanities Institute, a hub for graduate engagement with the wider academic community.

We are part of the Creative Futures Academy (CFA), a Higher Education Authority academic collaboration with NCAD and IADT. The CFA offers students the chance to work with and learn from a broad range of leading academics, practising artists, and creative industry professionals. In addition to traditional classroom teaching, students collaborate and produce work in Trapdoor, our new state-of-the-art blackbox theatre and dedicated media lab.

We are number #1 for Employability. Our students develop in-depth subject knowledge and a wide range transferable skills. They become experts in research, critical thinking, analysis and problem solving. Our alumni enjoy successful careers and make their mark on a national and global scale in a wide variety of sectors, including: the media, the arts, culture and business.

We work closely with the UCD Careers Network, our alumni and industry partners to help our students realise their career ambitions. In addition, our students can access the UCD Alumni Career Mentoring Programmes and our globally connected network of alumni in more than 184 countries.

**“This degree really helped me develop my skill set and empowered me to find my niche areas in arts management and the cultural sector.”**

## UCD College of Business

UCD Michael Smurfit Graduate Business School

UCD College of Business has provided business education for over a century, first introducing the Bachelor of Commerce degree in 1908. In 1964, University College Dublin became one of the first universities in Europe to offer the degree of Master of Business Administration (MBA).

UCD Michael Smurfit Graduate Business School is Ireland's premier business school with an outstanding international reputation, deep corporate connections and an extensive alumni network that spans the globe.

Endorsed with triple accreditation from AACSB (US), EQUIS (Europe) and AMBA (UK) for more than 20 years, we are the only Irish member of the influential business school alliances CEMS, GNAM and UNICON. With a mission centred around creating transformational change for a better future, this is the only Irish business school consistently ranked globally over the last ten years.

**“The MSc in Marketing Practice provided me with an innovative and challenging environment, in which I gained specialised marketing knowledge. The action learning approach is what initially drew my interest. My experience of dealing with clients from different industries on a daily basis enhanced my professional development. There was a great networking ethos on this course, which allowed me to forge both social and professional relationships.”**

UCD College of  
Engineering & Architecture

The UCD College of Engineering and Architecture, with over 320 staff and 3,000+ students, is the largest and most comprehensive college of its kind in Ireland.

Many of our programmes are recognised and accredited internationally and our graduates are held in high esteem around the world. Students of the College of Engineering and Architecture will be taught by a faculty that is highly research active, responsible for cutting edge research, resulting in publications in leading academic journals, the creation of on campus companies and the commercialisation of research.

ENGINEERING

Whether you are continuing your engineering and technical education following a bachelor’s degree or have developed your experience as a professional engineer and now wish to complement that with additional qualifications, you will find a relevant graduate degree programme within UCD Engineering. Offering you opportunities to follow your interests across the agri-food, business, communications, energy, healthcare, materials, pharmaceuticals, physical infrastructure, sustainability, transport or water sectors, there are options within UCD Engineering that will advance your knowledge, career prospects and stimulate your passion for your chosen field.

ARCHITECTURE, PLANNING &  
ENVIRONMENTAL POLICY

The college’s graduate programmes in this area offer a uniquely rich and varied range of approaches to the design and development of our built and natural environmental, from policy formulation to the detailed design. Our programmes will prepare you for professional careers, will help you build specialised knowledge and skills, and will equip you to deal with the complex challenges in a changing, globalised world.

“What convinced me to choose this programme was its interdisciplinary nature and the fact that the programme manages to combine theoretical learning and practical experiences masterfully.”

Matteo Nicolasi  
ME Materials Science & Engineering.

# UCD College Of Health & Agricultural Sciences

The UCD College of Health and Agricultural Sciences values the impact of powerful and innovative teaching and guidance structures and offers graduate students the opportunity to exercise their enterprising instincts.

Within this College, a wide range of taught and research programmes are offered in the areas of; Agriculture and Food Science; Medicine; Nursing, Midwifery and Health Systems; Public Health, Physiotherapy and Sports Science; Radiography and Diagnostic Imaging; Psychotherapy; and Veterinary Medicine.

Across each of these areas, students at UCD can expect an unparalleled level of expertise, supervision and support from their world-class lecturers. The College of Health and Agricultural Sciences is world-renowned for its hands-on approach to graduate education and for the internationally recognised quality of its postgraduate qualifications.

All students considering accessing the broad range of graduate programmes offered by this College can look forward to a world-class level of teaching and an exciting range of career prospects following graduation.

“UCD fostered a supportive learning environment and encouraged critical thinking and collaboration among students.”

Caroline Dardis  
MSc Sustainable Agriculture and Rural Development.

## UCD College of Science

The UCD O'Brien Centre for Science provides a vibrant and state-of-the-art centre of learning, welcoming students and staff from all corners of the world.

Our academic staff are expert teachers and are highly reputed world-class researchers, and our research interests and strengths inform our postgraduate degree courses.

UCD Science graduates are in great demand in Science and Science-related jobs both in Ireland and overseas, and a postgraduate degree in science lays strong foundations for a wide variety of careers.

**"My journey at UCD has been defined by growth, discovery, and a deepened passion for scientific research. Working on a research project at the Conway Institute has provided me with hands-on experience and honed my skills in molecular biology and data analysis. Post-graduation, I aim to pursue a PhD in Biomedical Sciences, focusing on cancer biology. My long-term career goals include working as an academic researcher and mentoring future scientists."**

# UCD College of Social Sciences & Law

UCD College of Social Sciences and Law delivers a comprehensive range of internationally recognised, academically rigorous postgraduate degrees in Law and key Social Science disciplines.

As a leading centre for education and research in the Social Sciences and Law in Ireland, the College is ranked highly in these disciplines globally. Subjects ranked in the top 100 QS World rankings (2025) include Library and Information Management, Social Policy & Administration, Archaeology and Philosophy.

Graduate degrees including taught master’s, research master’s and doctorate degrees are offered in Archaeology, Economics, Education, Geography, Information & Communication Studies, Law, Philosophy, Politics & International Relations, Psychology, Social Justice, Social Policy, Social Work and Sociology. Numerous interdisciplinary and multidisciplinary degrees are available on topics such as Behavioural Economics, European Affairs, Public Policy, Criminology & Criminal Justice, Geopolitics and Human Rights. Additionally, the College offers a range of professional diplomas and certificate programmes.

**"On this course there is a good blend of theoretical knowledge with practical application. Modules like informatics, quantitative data analysis and project management were particularly engaging because they allowed me to do research while doing assignments and also involved working collaboratively with other students."**

## UCD Micro-Credentials

UCD micro-credentials are short (approximately 6-12 weeks), accredited courses providing opportunities to upskill in industry-aligned and skills gap areas. They address many barriers to lifelong learning, with flexible online and hybrid delivery options. Any micro-credential can be taken as a standalone credit-bearing course to boost your knowledge and skills in a specific area. UCD offers micro-credentials across a range of subject areas, including for example:

### AGRICULTURE & FOOD

Developed by academic faculty in the UCD School of Agriculture and Food Science; agriculture, food science, and human nutrition are some of UCD's most highly ranked disciplines, reflecting the level of expertise and research activity underpinning them. These micro-credentials cover topics such as Food Safety, Nutrition, Sustainable Food Systems, and Animal Science.

### ENGINEERING

Developed by the academic faculty at the UCD College of Engineering and Architecture, these micro-credentials will enable professionals to upskill in Electrical Engineering and Digital Manufacturing.

### ETHICS

Developed and delivered by the Centre for Ethics in Public Life, based in the UCD School of Philosophy, these micro-credentials aim to provide learners with a practical understanding of how ethics influences decision-making in public life and the workplace, fostering more conscientious and responsible employees and contributing to the cultivation of trusted and reputable organisations.

### LAW

UCD Sutherland School of Law offers a wide range of micro-credentials for legal and non-legal professionals. The School works closely with law firms, government departments, and

NGOs to ensure that programmes are aligned with sectoral needs. These micro-credentials cover areas such as Arbitration, Environmental Law, Human Rights and more.

### MEDICINE HEALTH & DISABILITY STUDIES

The UCD School of Medicine and the UCD School of Public Health, Physiotherapy and Sports Science offer a wide range of micro-credentials for healthcare professionals, designed to fit around busy clinical schedules. The School of Psychology currently offers micro-credentials in the areas of mindfulness and disability studies.

### SUSTAINABILITY IMPLEMENTATION

Offered by the UCD School of Biosystems and Food Engineering, these courses are designed to bridge the gap between sustainability knowledge and practical engineering skills. These modules address critical industry needs in areas related with the assessment, quantification, analysis, and implementation of sustainable systems and practices.

### DATA SCIENCE

UCD School of Mathematics and Statistics offer a suite of course options are designed for ICT professionals who wish to develop skills to support careers in Data Science or Data Engineering.

### CYBERSECURITY

The School of Computer Science offer a range of micro-credentials designed to prepare IT professionals for a managerial or technical career in cybersecurity. They also provide a range of short courses for employees in law enforcement.
