

The following settings should be checked where there is an issue with Brightspace/Urkund features using Safari

Brightspace and latest Safari version Resolution Steps:

To configure cookie settings in Safari for macOS:

1. Open Safari
2. Click the Safari menu and select **Preferences**
3. Click the **Privacy** tab
4. **DISABLE** both the **Prevent cross-site tracking** option AND the **Block all cookies** option. Both of these boxes must be unchecked.
5. Close the Safari **Preferences** window and refresh or restart your browser.
