

Clinical Lecture Series

2025-26

This lecture is hosted by University of Limerick

Wednesday 5th November 2025
8:30 - 9:30am

Speaker: Dr Christina Hayes

“Integrated care model for
community dwelling older
adults living with frailty”

Register at [ISCP.ie/events](https://iscp.ie/events).

Christina Hayes is a postdoctoral researcher in the School of Allied Health in The University of Limerick. Her area of interest broadly focuses on the identification and management of older adults living with frailty in the community. Christina has worked as a clinical physiotherapist across the acute and primary care settings. Christina completed the renowned Structured Population Health and Health Services Research Education (SPHeRE) PhD training programme and graduated from her PhD in August 2025.
