

To ensure that Banner 9 uses the correct date format i.e. dd/mm/yyyy you need to update the language preference in your browser to English **(UK)**.

You only need to do this one time.

Settings		۹	Search settings

Update your language preference in Chrome

- Open Chrome
- Click on the three vertical **dots** on the top right-hand side of the screen
- Choose Settings from the list
- Type 'languages' into the search bar or chose it from the Advanced list on the lefthand side
- Select English (United) **Kingdom)** as your language preference
