CT Academy

This CT Academy is aimed at Radiographers who have not yet completed formal postgraduate studies in Computed Tomography (CT) but have either undergone 'in-house' training in CT, or have an interest in training or specialising in CT. This programme will incorporate small group and hands-on sessions. There will be an optional intravenous cannulation and administration day.

Course Features

24-26th June

- Current CT technologies and recent developments
- Fundamentals of parameters
- Fundamentals of image quality
- Practical considerations in radiation protection and dose reduction
- Best practice guidelines and clinical applications for a range of CT examinations
- Image Evaluation
- Hands-on image post-processing labs
- Sessions delivered by experts in the field
- Lunch and refreshments at breaks included
- Certificate of completion

Endorsed by the Irish Institute of Radiography and Radiation Therapy for CPD purposes.

The IIRRT will fund the 3-day CT Academy fee of €300 for the first 5 Radiographers or Radiation Therapists working in the HSE who apply for a refund. This is open to IIRRT members and non-members. Refunds are only paid on completion of the course and upon production of receipt. Refunds will not be paid in cases where the participant has received funding from elsewhere. Contact **Ann Marie Martin** (iirrtoffice@gmail.com) or **Sinead O Sullivan** (iirrtcpdofficer@gmail.com) for refund.

Features of Optional Day

27th June

- Iodinated contrast agents
- IV cannulation and administration consideration and techniques
- Hands-on practical session
- Additional online learning material prior to attendance
- Leading to certification of competence in IV cannulation and administration upon submission of a clinical logbook with 12 months of the programme

Course Costs

Fee: € 300

Fee (including optional day): € 550

Campus accommodation (4 nights): €53 per room (ensuite) per night
