

School of Medicine & Medical Science

Scoil an Leighis agus Eolaíocht an Leighis UCD

Intercalated Masters in Medical Science

"This has been an intense and amazing experience. My professor, supervisors and co-workers were brilliant and always willing to help me out or give advice"

S. Flynn
2009/2012 Student
Medicine degree & MSc in Medical Science.

ABOUT THE PROGRAMME

- Combine undergraduate and graduate study
- Gain MSc in Medical Science during your undergraduate studies
- Engage with our extensive research portfolio
- Prepare for a career in medical or biomedical research
- Financial scholarship towards fees and living expenses

PROGRAMME OVERVIEW

For students who wish to pursue a career in medical or biomedical research, the School offers an innovative Intercalated MSc in Medical science. This one year intercalated research programme is designed for students with 180 credits from their undergraduate medicine degree programme and graduate entry medicine students with a primary degree in a science-based discipline.

Scientific knowledge and discovery is at the heart of all our undergraduate degree programmes and our mission is to create life-long learners who are fired by a desire to add to the knowledge base through enquiry and investigation. The programme is designed to increase research opportunities within our undergraduate programmes and expose students to research that enhances our understanding of disease with the ultimate aim of improving human health.

CAREER OPTIONS

The programme is specifically designed to facilitate those medical students who wish to establish a research career after graduation. The School offers an extensive array of taught and research masters and doctoral programmes across all major clinical specialities including MD, MCh, MAO, MSc and PhD.

Many clinicians lead successful translational research programmes within the School and are principal investigators with our major associated research centres. The School is committed to research that enhances our understanding of disease with the ultimate aim of improving human health. It has over 75 principal research investigators with research grants under management to the value of approximately €35 million and annual research income of over €7.5 million.

SELECTION CRITERIA

The programme is open to undergraduate direct entry medicine students with 180 credits, or graduate entry medicine students with a primary degree in a science-based discipline. Preference will be given to candidates with previous research experience (e.g. UCD Summer Student Research Award Scheme or an independent science/medicine project).

Excellence in Healthcare Education

WHAT TO EXPECT FROM LIFE WITH US

- Innovative, internationally recognised undergraduate programmes
- Extensive portfolio of graduate (taught and research) programmes
- Shape your degree to suit your future
- Study and train all over the world
- Make an impact on society

UNDERGRADUATE DEGREE PROGRAMMES

Full-Time Programmes

- Medicine (MB BCH BAO)
- Graduate Entry to Medicine (MB BCH BAO)
- Biomedical Health & Life Science (BSc)
- Physiology (BSc)
- Radiography (BSc)

GRADUATE TAUGHT PROGRAMMES

Full-Time, Part-Time and Occasional – All Academic Levels

- Clinical Investigation and Translational Research
- Emergency Medical Science
- Forensic Medicine
- Healthcare Systems
- Psychotherapy
- Diagnostic Imaging
- Medicine Specialities

RESEARCH PROGRAMMES

MSc, MD, MCh & PhD

Continuous Professional Development

- Biological Imaging
- Infection, Inflammation & Repair
- Vascular Disease & Diabetes
- Bioinformatics & Systems Biology
- Clinical Research & Translational Research
- Genomics, Proteomics & Transcriptomics

OUR PROGRAMMES

- Innovative, internationally recognised undergraduate programmes
- Extensive portfolio of graduate (taught and research) programmes

ABOUT THE SCHOOL

Founded over 150 years ago, UCD School of Medicine & Medical Science is Ireland's largest medical school with innovative, internationally recognised undergraduate, graduate and research programmes, a scientific, patient-focused curriculum and a diverse, multi-national student population.

We are committed to improving healthcare at home and abroad through the training of competent, caring professionals who are life-long learners, driven by scientific enquiry and responsive to the constant evolution of biomedical science, technology and society needs.

Together with the Mater Misericordiae University Hospital and St. Vincent's Healthcare Group, we have established Ireland's first academic health centre – the Dublin Academic Medical Centre.

EXPECT EXCELLENCE

- Clinical training at Ireland's major acute, specialist and general hospitals
- Nationwide primary care clinical training network
- A scientific, patient focused curriculum
- State of the art academic and clinical training facilities
- Multiple opportunities to travel, study and train abroad
- Tailor your degree to suit your career goals
- Portfolio of biomedical, clinical and translational research
- Large, research active faculty
