

Core Workshop 4 – *Monitoring, Assessment, Examiners & Viva (MAEV)*

18th May 2018

(Venue: UCD)

Navigation of the transfer assessment process, thesis submission and preparation for the *viva voce* are key areas frequently raised by doctoral supervisors, requesting advice and guidance. This workshop covers the Transfer Assessment Process in UCD, a significant milestone for assessing doctoral student progress and determination of progression or otherwise, on the doctoral programme. This session also walks supervisors through the process of selecting examiners, thesis submission at UCD and recommends approaches to preparing confident students for the *viva voce* examination.
