

UNIVERSITY *of* LIMERICK

OLLSCOIL LUIMNIGH

Student Mathematical Modelling Workshop

University of Limerick
24th - 26th June 2015

This 3 day residential workshop will provide participants with hands-on experience in the mathematical modelling of real-world problems. It will also act as an introduction to study groups (solving problems) with industry. It is designed for final-year undergraduates, Masters' students and early-stage PhD researchers in mathematics, science and engineering. There is no charge to attend and it is hoped that most participants will be able to stay on in Limerick for ESGI110 the following week (28th June - 3rd July).
