

	Monday February 14	Tuesday February 15	Wednesday February 16	Thursday February 17	Friday February 18
9.00 -10.15	Design of experiments (Kalogeropoulos, MCS-EPFL)	Risk based inspection and management of bridge stocks (Brühwiler, MCS-EPFL)	Probabilistic approaches to fatigue using fracture mechanics (Jacob, LCPC)	Project Management (Hosseini, ABM)	Reliability methods for structures (O'Connor, TCD)
Coffee					
10.45 -12.00	Ground Penetrating Radar (GPR): Bases and applications (Kalogeropoulos, MCS-EPFL)	Fatigue and safety verification of road bridges (Brühwiler, MCS-EPFL)	Research Seminar	Bridge rehabilitation using UHPFRC (Denarié EPFL)  Management Meeting	Optimal capacity assessment of bridges (Pedersen, RDA)
Lunch			Visit of Learning Center		
1.30 -4.30	NDT methods: GPR and air permeability of concrete, Demonstrations and exercises (Kalogeropoulos and Denarié, MCS-EPFL)	Site visit to Lavaux Highway : maintenance works 	Research Seminar (contd)	<u>Debate:</u> How does TEAM contribute to a carbon free road infrastructure ?	<u>Panel Discussion:</u> Sustainable Infrastructure Management
		Dinner (Fondue) at Lutry	Training Week Dinner in Lausanne
