## Our Key Services

## Who we are & who our customers are

UCD IT Services provides all central IT applications, support and infrastructure for staff and students throughout the University. The scope of the service includes Academic & Administrative systems, Research IT, Teaching & Learning technologies and UCD Web services.

UCD IT Services is committed to supporting the University's core missions of education, research and service by assisting staff and students to reach their goals through the delivery of customer focused, quality IT products, support and services.

## IT Planning - How we work with you

Planning and implementation of IT Strategy at UCD is the responsibility of the CTO and UCD senior management team. IT Steering Groups advise on priorities and facilitate the gathering of requirements across the University. Each College established a College IT framework, which encompasses inputs from the Schools.

Within this framework College Liaison roles were established to promote better communications and planning. These roles provide direct links between IT Services and each College with similar roles in place for administrative and other services.

## Priority Levels and Resolutions

Your query will be given a priority level, determined by its nature and by the number of users affected.

Priority	Description	Target Resolution Time
1	An entire campus network failure including a remote site or the outage of an essential service (of which there are 13, including UCD Connect, Email)	4 working hours
2	An outage of any other main service	8 working hours
3	An outage concerning smaller groups of users, or confined to one location	16 working hours
4	Individual user problems - confined to the single user only	Up to 48 working hours (time dependent on type of issue)

UCD IT Services hours of service are 9.30am to 5.30pm, Monday to Friday. Calculation of target resolution time is based on availability of services from 9am to 9pm.

*While every effort is made to ensure that the target resolution times are met, resolution times for services that are dependent on external providers may vary.*
