- HEAR
- DARE
- QQI-FET
- Mature Years
- University Access Course
- Open Learning
- Lifelong Learning

Student Experience

- Taster Lectures
- Student Experience
- Community Engagement
- Moot Court

The Widening Participation (WP) Outreach Coordinating Network

This network is a subgroup of the UCD WP Committee and brings together UCD staff who are interested in engaging in activities to increase the participation of underrepresented communities at UCD.

The role of the WP outreach network is to develop a university wide coherent approach to deliver WP outreach initiatives to our community partners in low progression communities, which contributes to ensuring a diverse student population for UCD.

The Widening Participation (WP) Outreach Coordinating Network

University for ALL is a whole-institutional approach to inclusion in UCD. This initiative brings together the entire university community to work together to achieve our goal of becoming a fully inclusive, diverse institution. The UCD Strategy 2020-2024: Rising to the Future states that through the "mainstreaming approach - (University for ALL) we recognize, promote and value diversity, foster the spirit of inclusion, appreciate the breadth of talent, experience and contribution of all students, and strive to remove barriers to access, participation and success.

1/4 Places made available

On quarter of Stage 1 places are ring fenced for the Admissions pathways, HEAR/DARE, QQI-FET, Mature Entry, University Access & Open Learning
